

DULUTH HERALD.

FIFTEENTH YEAR.

WEDNESDAY, SEPTEMBER 8, 1897.

FIVE O'CLOCK EDITION.

TWO CENTS.

SCHOOL DAYS.

The boys will soon be thinking of the good times they've had during their long vacation and the hard lessons before them. So will the mothers think of the necessary Boys' new Suits and Shoes. The clothing trade has almost turned a somersault the past few years. Whoever wants to get and retain it must go at it with the ardor of an artist and the wit of a merchant. 'Tis the mothers the Boys' clothing sellers have to deal with.

We want the Boys' clothing business and had no effort, too great to keep it. With this season's stock we've doubled our chances. It's all brand new. Manufacturers of clothes this season have excelled themselves. Styles have never before been so attractive. In fact, of us all the time has been our trademark—popular low prices. With this hammer we've built up the greatest Boys' clothing business in this city. With this hammer we'll double it this season. Hundreds of Boys' New Fall Suits at \$1.50, \$2.00, \$2.50, \$3.00 and \$3.50. Other hundreds of children's new fall Reefers, Middy, Blouse and Zouave Suits. (2½ to 7 years) at same prices. Don't buy a dollar's worth of Boys' clothes till you've seen it all.

ATLANTA HANGING.

H. S. Perry Stretches Hemp For the Killing of Bely Lancer.

Atlanta, Ga., Sept. 8.—H. S. Perry was hanged for the murder of Bely Lancer at Decatur today. The execution took place on a gallows in the yard of the Decatur county jail. The doomed man was pale but cool and collected to the last. On the scaffold he declared his innocence of the crime of murder, and repeated his statement that he killed Lancer to protect the sanctity of his home. The drop fell at 11:45 a. m.

Horace Stevens Perry was conducting a small grocery business in Atlanta when he committed the crime for which he paid the penalty on the gallows today. To supplement the family's income, Perry took boarders at their home on Piedmont avenue, among these was Bely Lancer, a young theological student. The domestic relations of the Perrys were not happy. Perry had become infatuated with a woman of questionable character.

In the troubles that arose from the liaison Lancer became involved, and as a result Perry shot and mortally wounded him in the court house at Decatur, on Monday, March 8. After inquesting for a few days, Lancer died from the effects of the wound. Both men were under arrest when the shooting occurred, having been taken into custody at Ingleside, to which place Perry had followed Lancer, for the avowed purpose of avenging an insult to his wife. Though both were searched, Perry succeeded in concealing a pistol, and no sooner had the party entered the court house at Decatur than he fired upon Lancer. After the shooting Perry said that his only regret was the fact that Lancer might live. He declared that Lancer had outraged Mrs. Perry.

Lancer strenuously denied that he had committed the assault, and before his death made a statement in which he said Perry was angry because he (Lancer) had told Mrs. Perry of Perry's alleged relations with other women.

Perry was placed on trial for his life at a special term of the Dekalb superior court at Decatur on Tuesday, April 27, and convicted. The case was appealed to the state supreme court, which refused to grant a new trial. Strong pressure was then brought to bear on Governor Atkinson to have the condemned man pardoned, but after granting a respite, to allow himself time to investigate the case, the governor refused to interfere. The sole plea of the defense throughout was that Perry killed Lancer to avenge an outrage upon his wife.

SHORTAGE OF CARS.
Philadelphia, Sept. 8.—On account of the immense shipments of grain from the West the Pennsylvania and Baltimore & Ohio Railroad companies are experiencing considerable trouble in furnishing enough freight cars to the demand. All cars that can be spared are forwarded to such Western points as the business requires.

PENNSYLVANIA AT NASHVILLE.
Harrisburg, Pa., Sept. 8.—At the urging of the executive committee of the Pennsylvania committee to Nashville exposition held here, it was decided to make Oct. 13 Pennsylvania day. The commission with the governor, staff, and supreme and superior courts, will leave here on Oct. 8, spending two days at Chattanooga and the dedication of Pennsylvania monuments.

FEVER IS IN CHECK

New Orleans Insists She Has a Clean Bill of Health Anyway.

THE BILOXI CASES

At Ocean Springs There Are Many Prominent People Who Are Quarantined.

New Orleans, Sept. 8.—The Louisiana state board of health is today in full control of the situation. Although perfect arrangements have been made for reporting either yellow fever or suspicious cases, up to 10 o'clock today there had not been a single case reported to the board, and the authorities frankly declare that any more sickness of virulent type will be imported. In spite of New Orleans' clean bill of health, Louisiana and Mississippi continue to declare quarantine. There is infinitely more scare away from here than there is in this city, where confidence has entirely returned. It is confidently believed, however, that immunity from yellow fever for eight or ten days will bring the epidemic to a close. The raising of the quarantine and Louisiana towns to their senses and move them to tear down their barriers.

There was a busy scene at the Louisville & Nashville depot this morning when the trains arrived. The raising of the quarantine against Bayest Pass had the effect of driving hundreds into the city, but in the immediate vicinity of the quarantine there were no cases of fever, but because they did not care to be held up in those places indefinitely if sporadic cases of fever should appear. Among those who have been detained at Bayest Pass for several days are many prominent insurance, financial and other business men, and they are all glad to get back to the city this morning.

Owing to the fact that the operators at coast cities have been greatly overworked and almost smothered with private messages, general news from these points trickles in slowly. Replies have been received at this writing of the appearance of further cases at New Orleans. It is not unlikely that the outbreak in New Orleans is not far from those who are already on their backs. Thus far there have been no pressing appeals from Mississippi for physicians to aid the doctors who are there, and unless there is a widespread outbreak of the disease the present force of physicians at Biloxi and Ocean Springs will be able to handle all existing cases.

Both towns, however, are in need of supplies and are appealing to the railroad company to promptly arrange for the sending to them of needed supplies. The mail service was gotten into pretty fair shape yesterday. F. M. Daniels proposes to have mail trains regularly handled very shortly. There are several prominent citizens of New Orleans who are being quarantined and unable to get out, and the barriers put up by the board of health are positively insurmountable. He then succeeded in accomplishing his purpose and escaped through the back door.

There is not the slightest clue to the assassin. The town is worked up to produce excitement as this is the second assault of a like nature in the last two weeks in this city.

A NARROW ESCAPE.

Yellowstone Tourist Rescued on the Brink of Death.

Yellowstone Lake, Wyo., Sept. 8.—Yam M. Hillat, of Osmatonic, Kans., came very near losing his life by fall yesterday on the Yellowstone Grand canyon. Hillat had descended the canyon to Rock Lake, looking out, and while walking around he slipped and started to roll down the wall of the canyon. He was rescued by a party of tourists, who lowered a rope to him and pulled him up. With the exception of a few scratches Hillat escaped uninjured.

POSTAL CLERKS' CONVENTION.
San Francisco, Sept. 8.—After the close of the session of the Letter Carriers' convention last night a caucus of second class city delegates was held and resolutions asking for reforms in the postal service were adopted. They will be presented to the convention by the following committee: Bernard M. Jeffries, of New Hampshire; Charles Balke, of California; Charles Alton, of New York; and Mr. Elroy, of Bridgeport, Ohio.

BILOXI'S NEW CASES.

Half a Dozen New Patients Have Been Found.

New Orleans, Sept. 8.—Mayor Harry Howard has issued a proclamation to the people of Biloxi, who have found three cases of yellow fever and three suspects. He says they are all isolated and that no facts will be withheld.

Residents of North Bay have appealed to the Biloxi committee asking that quarantine be raised so they may secure supplies. They say they are suffering. Biloxi people are impatient to have Dr. Guiteras and other experts visit them, so as to determine if the fever in Biloxi is really yellow fever.

SENT TO OCEAN SPRINGS.

Cleveland, Sept. 8.—Steward Richardson, of the United States marine hospital of this city has been ordered to Ocean Springs, Miss., to care for the yellow fever outbreak. The orders were received from the treasury department today.

A SICK DOCTOR.

New Orleans, Sept. 8.—Dr. Guiteras, the United States government expert, arrived in Ocean Springs this morning. Dr. Sheedy, chairman of the Biloxi case in Ocean Springs, is reported sick with fever at Perkins.

BELIEVES IT MALARIA.

Washington, Sept. 8.—This afternoon following reassuring telegram in answer to a message asking Dr. Lemon,

president of the board of health at Biloxi, Miss., concerning the report in the morning papers of three yellow fever cases at Biloxi.

"Biloxi, Miss., Sept. 8.—So reported, have best reasons to believe from a reliable party that it is simple malaria."

READY TO COMMENCE.

Coal Operators Waiting for the End of the Strike.

Pittsburg, Sept. 8.—The coal operators are unusually active getting their mines ready for operations. Many are ready for a start tomorrow. No doubt is expressed as to the result of the convention at Columbus, and an order declaring the strike off is expected before the close of the day. The mines that have been enjoying the past two months in pasture have been called in, and the coal operators are ready to begin work. The coal operators are ready to begin work. The coal operators are ready to begin work.

A number of fake shippers arrived in the city from Cleveland during the day to identify the mines. The coal operators are ready to begin work. The coal operators are ready to begin work. The coal operators are ready to begin work.

AN UNSOLICITED ADVANCE.
Owosso, Mich., Sept. 8.—Todd Kincaid, president of the Cornelia Coal company has notified his miners that ten days will bring the epidemic to a close. The raising of the quarantine and Louisiana towns to their senses and move them to tear down their barriers.

A MYSTERIOUS SUICIDE.

Cincinnati Has a "Prominent" Un- known in the Morgue.

Cincinnati, Sept. 8.—The body of an unknown man who had committed suicide during the night by shooting was found in the grounds of the palatial residence of O. J. Wilson. There were sensational developments in the attempt to identify the body. It was positively identified as that of C. M. Charney, of Chicago, the defaulting secretary of the Presbyterian board of education for the city. The body is in the morgue. The body is in the morgue.

A MACON OUTRAGE.

Which May Furnish a Subject For a Lynching.

Macon, Ga., Sept. 8.—Miss Sallie Chapman, living at 125 First street, with her half brother, J. C. McInval, was assaulted and brutally outraged in her bedroom by an unknown man, on the night of Sept. 7. The assault was committed by a man who was positively identified as that of C. M. Charney, of Chicago, the defaulting secretary of the Presbyterian board of education for the city. The body is in the morgue. The body is in the morgue.

SMILING LUETGERT

Big Sausage Maker Grooms the Men Who Hold His Life In Keeping.

MANY WOMEN THERE

Thirteenth Day of Luetgert's Trial for the Murder of His Wife.

Chicago, Sept. 8.—The alleged wife murderer, Luetgert, seemed pleased at the comments of the papers today regarding his entrance into the courtroom yesterday. Accordingly, this morning when he stepped into Judge Tuttle's court room for the thirteenth day of his trial, he repeated his smiling salute to the jury and ignored the spectators, who evidenced their disappointment at the slight. The prisoner attempted to catch the eye of the presiding judge, but the latter dignifiedly completely ignored the attempt of the big sausage maker to bid him good morning.

Luetgert held a familiar conversation of a minute's length with the newspaper reporters near his seat and then settled down to a consultation with his attorneys. He seems to be in unusually good spirits despite the damaging evidence heard during yesterday's sessions.

The spectators continue to be mostly of the fair sex and the crowds are growing larger daily. A greater crowd than ever before congregated today at the huge stone entrance of the criminal court building and a score of the bailiffs lined the entrance. The police and officers were required to keep open a passage way.

The first witness called was Eugene B. Palmer, a reporter for the Chicago Journal. Palmer testified to having held small bottles under the body of a pinkish matter which flowed from the slits of the vat when police opened the valve. Palmer was followed by W. H. Stuart, also a Journal man, who corroborated the testimony of his confederate and testified to having delivered this same bottle of pinkish matter to the jury.

Police man Bernard Preuss was called and identified two bits of steel as the pieces he found in the ashes where the supposed residue of the vat was. Other material which was scooped from the vat was dumped. Policeman Fred Talow testified to having found a hairpin in the same pile of refuse and the hairpin was produced as evidence after collection by Attorney Vincent to the effect that it will imply to introduce as evidence any and every object, which owing to its similarity to objects worn by any and every woman, could be identified as having been the property of Mrs. Luetgert.

The sensation of the day, J. H. Odenbreit and W. G. Cady, corset makers, were placed on the stand in succession and positively identified the two alleged corset steels as having been the product of their factory. Certain marks on the two bits of metal were shown to correspond with similar marks on the new steels which were produced in court. The witnesses each testified positively as to the similarity and also to the fact that the new steels were of the pattern usually sold by their factory. It was considered by the state to be a great blow to the defense and was unexpected by the latter, who hoped to prove that the two pieces of steel were not his.

Carl Klein, Jr., who is employed by a dentist, described a set of false teeth which he had sold to Luetgert. Klein seemed to be burdened with the sense of his own importance in the case, and in cross-examination by Attorney Vincent, chief counsel for the defense, he continually objected to the questions asked and refused to answer. Several of the questions until the court ordered him to do so. His conduct on the stand caused considerable merriment among the lawyers and spectators.

Emma Schimke, sister to Gottlieb Schimke, who testified to having seen Luetgert in his wife enter the factory on the fatal evening, was placed on the stand to corroborate the testimony of his brother-in-law. She was a very faltering witness and suffered under the searching cross-examination which was subjected to her.

Emma Schimke was apparently imbued with the idea that she must testify only to those matters which hurt the cause of the defense. Judge Tuttle administered a kindly but firm lecture to the trembling girl. From her the defense secured the admission that she was not sure she saw Luetgert, his wife enter the factory and the defense also forced her to admit that she could not remember anything that happened on any other special night than May 1. When asked the day of the attack upon which May 1 fell, she hesitated and then said "Saturday, wasn't it?" The defense felt that their cause had gained perceptibly from her testimony.

Police Sergeant Spangler, who was active in procuring evidence for the prosecution, testified to having secured, either from officers or from the factory and vicinity, corset steels, a celluloid hairpin, a half a tooth, particles of bone scrapings from both the interior and exterior of the vat in which it is alleged Mrs. Luetgert's body was dissolved and slime from the sluice leading from the vat.

Vickerick Bickens, brother of Mrs. Luetgert, identified two photographs as likenesses of his sister. The pictures were passed around among the attorneys and the jury. The pictures were compared the two and consulted about them with their attorneys.

Another sensation was sprung when Mrs. Christine Feldt was called to the stand again. The witness identified an ugly looking knife which she said Luetgert handed to her for safe keeping on the day of his arrest. According to the testimony of the witness, Luetgert examined it. He smiled as he handed it and talking with his attorneys about it, admitting that it had been his property.

HALL IS REINSTATED.

Maj. Baldwin's Successor Again Given the Place.

Washington, Sept. 8.—(Special to The Herald.)—The interior department officials, in order to avoid any difficulty growing out of the removal of Chairman Baldwin of the Chippewa Indian commission, today had ex-Congressman Hall reinstated as a member of this commission. This will circumvent any objection which could be made to Hall's appointment.

BEAUTY TO TAKE THE VEIL.

Miss Annette Van Rensselaer to Join a Cloistered Order.

New York, Sept. 8.—Miss Annette Van Rensselaer, of Netherwood, Dutchess county, who will take the veil of the Sisters of the Presentation at their convent at Staten Island today, is only 17 years old, and her admission to the cloistered order at so early an age is considered noteworthy. She is the daughter of Mrs. Julia Van Rensselaer, postmistress at Netherwood, a hamlet in the town of Clinton. The girl's father was Col. Walter Van Rensselaer, who served in the Union army from Massachusetts. He died several years ago. He was of the old Van Rensselaer family of Albany, but left no fortune. The family were Episcopalians until, through the influence of a woman who lived with them, Mrs. Van Rensselaer became a Roman Catholic. Annette attended the Little

MISS VAN RENSSALAER

school in Netherwood and was remarkable for her beauty. She was sent by her mother two years ago to attend a school conducted by the Presentation nuns attached to St. Michael's church in New York city, whose convent is on Staten Island. She soon made up her mind to become a nun. Not all of the children embraced the Roman Catholic faith with their mother, and those who did not are said to oppose their sister's resolution.

Miss Van Rensselaer is a direct descendant of the old Van Rensselaer family of Albany, whose stately old mansion is one of the most historic houses in America. The dwelling, built between 1620 and 1642, is one of the oldest in the United States. It will soon be torn down. It was at the old well in the rear of the mansion that "Yankee Doodle" was composed by Dr. Schuckburg, who was a chaplain in the revolutionary army. It was at the mansion that Gen. Abercrombie and staff had their headquarters, and on the grounds in the rear his troops were in camp. A reception was given to Gen. Lafayette in the house and numerous are the stories of romance, valor and love that are told with the old mansion as the central figure.

SOME CONSULAR REPORTS.

Germany Increasing Her Trade Steadily With Mexico.

Washington, Sept. 8.—Consul Monaghan at Chemnitz has informed the state department that Germany is steadily increasing her trade with Mexico and that for 1896 it amounted to more than in 1895, when it was \$5,000,000 marks. The goods Germany sends to Mexico are textiles, iron wares, china, glassware and machinery. The goods Mexico sends to Germany are raw materials, including mining, railroads, breweries, sugar refineries, etc.

BIKES IN NICARAGUA.

Washington, Sept. 8.—Consul O'Hara at San Juan del Norte has sent to the state department a long report on the state of bicycles, typewriters and other articles in Nicaragua. He says that no articles in Nicaragua are used on bicycles there on account of the weather, also that the roads are not very good for wheeling. Spanish-American women have not as yet taken to the wheel. He thinks with active agents sales of machines could be pushed. Typewriters are not in very general use.

WEAVING IN JAPAN.

Washington, Sept. 8.—A consular report has been received at the state department showing to what extent the weaving industry has been followed in Japan. In 1896 there were 949,123 looms, with 1,042,866 persons engaged, of which 385,016 were women and girls. The value of the textile product for the year was \$96,187,235, made up in part as follows: Silk textiles, \$46,431,401; silk and cotton mixed, \$10,231,272; cotton, \$37,063,571, and hemp, \$42,021,467.

BELGIUM FLAX CULTURE.

Washington, Sept. 8.—Consul Morris at Ghent, Belgium, has reported to the state department that a new system has been discovered for raising flax so as to destroy the microbes which are injurious to the cellulose matter in the flax. It is by a process of heating and further experiments to perfect the system are being made.

AUSTRALIA'S GOLD OUTPUT.

Washington, Sept. 8.—Consul General Maratta reports to the state department that for the six months ended June 30, 1897, there were received at Melbourne, Australia, mint, 619,214 ounces of gold. This came from Australia and the surrounding islands.

ANARCHIST'S GOOD LUCK.

Madrid, Sept. 8.—Owing to the lack of accord among the members of the court who tried Barriol, the anarchist, on Friday last, attempted to assassinate the chief and assistant chief of police of Barcelona, the captain general has declined to accept the sentence of death imposed upon the prisoner, and his case will be submitted to the supreme military tribunal, with the probability that the original sentence imposed upon him, forty years' imprisonment, will be maintained.

THE BIG GLASS BLOCK STORE

Is after your patronage and we are going to get it, that is, provided you buy your goods as we buy ours—on a business basis.

LISTEN

and we will tell you what we are going to do for you

THURSDAY!

SHORT OF Tobacco

That Will Be the Actual Condition of Many in the Klondike Region.

MONEY IS PLENTIFUL

But Supplies of Provisions Are Deplorably Low—Some Gold Estimates.

Fureka, Cal., Sept. 8.—The news by the steamer National City, from St. Michaels, corroborates all that has been said of the prospects of short ration in the gold diggings of the Upper Yukon river during the winter. The steamer, which connected with the river steamer J. J. Healy, at the mouth of the Yukon river, brought three passengers. One of these is J. A. Ralston, of 214 McCullister street, San Francisco. He says there is gold and lots of it in the Klondike, but it is generally still in the ground. It is believed that the claims now located around turn out about fifty tons this winter if the scarcity of food does not prevent full operations. He gives a rough guess that the Klondike is good for \$25,000,000 before playing out. Six thousand miners about Dawson City is the estimate of Ralston, who came down on the National City with E. Leonard, of Portland, Ore. The supply of the necessities of life to feed these men he says, is totally insufficient. In fact, an estimate that the stores will be exhausted before the winter is half over, when the men will be in the earnest, and especially as the number of men in the country will be greatly augmented by the later arrivals of the passes. There is whisky, beer and all kinds of liquor in profusion, he says, but their places could have been better filled on the steamer with flour. It is not that the men in the country have not money to buy supplies, but that the stocks of the stores are inadequate. Ralston says that one of the best claims in Eldorado is the property of James Hallack, of Missouri. It will turn out at least \$100,000, he says. No. 12, on Eldorado, is also very rich. It is a common thing to take out two ounces to the pan from any part of the Klondike. What wealth is coming on by the steamer Excelsior cannot be estimated. Those of the passengers who Healy who came to St. Michaels, were very recent as to their store of dust. With the exception of Ralston and his companions, all the passengers of the Excelsior took passage on the Healy. That vessel left St. Michaels the night of Aug. 26 with eighty passengers. She was put into Onondaga for coal, and Capt. Anderson of the National City, of the opinion that the Excelsior should arrive in San Francisco on the 10th of the National City left St. Michaels, the steamer Cleveland was taking in halibut, and expected to sail for Sound ports on Aug. 30.

Many of the passengers who had tickets for the Cleveland had been put on the Excelsior. On the way down the river from Dawson City, which place the steamer Healy left Aug. 14, the steamer Weare was found hard and fast on a bar. She was passed on the 18th, being about 1200 miles from the mouth of the river. The boat had been on the bar for two days, and the Healy laid alongside, took off the passengers and some of the freight and then proceeded to get a tow. The unfortunate boat had been fast and fast, with small chances of getting off before the river closed in for the season. E. Leonard says that the Weare had on board 100 passengers and about \$1,000,000 in treasure. This was transferred to the Healy and taken to St. Michaels. A considerable amount of cash put up in advance for the Excelsior.

When asked why he had returned, Leonard said: "I found I had to get out of there. There are about 4000 men in Dawson, and more than a third of them have work at all. I had not enough to work my own claim until spring, so I sold my claim at a good figure and will wait until spring. The Klondike, the Eldorado king, has had \$100,000 worth of provisions stored for some months, but has not been able to obtain more than a fifth of it, even with cash put up in advance. Those coming out, however, did not find their clean-up with them. Leonard recites numerous instances of men who had cleaned up from \$50,000 to \$100,000, but had taken away barely a third of that. The men say that they had been left. The National City was eleven days from St. Michaels, where she left sixty-five eager gold seekers. It is very doubtful whether any of the passengers who went up on the National City will get through this year. The small boat, which some of the passengers had taken up on the deck of the steamer, has proved a disappointment. There are enough provisions in the party however to winter it out and proceed up the river. The Cleveland was expected to sail on the day after the National City's departure. The Excelsior left St. Michaels twelve hours before the National City. Capt. Anderson reports that on Aug. 28 he passed the steamer Hugobol, but did not speak to her, and that she in all probability arrived at St. Michaels the following day.

NEW MINING COMPANY.

In Which George and Howard Gould Are Interested.

Denver, Col., Sept. 8.—The Klondike Exploration, Engineering and Mining company, with a capital stock of \$100,000 has been incorporated in this state. The directors for the first year of the company are Reid Northrop and William Northrop, of New York city; George B. Runas and P. Vickory, of Colorado; George Gould and Howard Gould, and the three Northrop's are cousins of the Goulds, are the company. The charter of the company grants the rights and privileges to explore new territory for placer and lode mining, to survey roads, public and private lands, to locate, lease and operate mining lands, and to operate and sell and sell vessels and a general transportation business by land.

THE WEATHER.

United States Agricultural Department.

Weather Bureau, Duluth, Minn., Sept. 8.

The low pressure area, con-

tinues central near the eastern boundary

of Montana, and has developed into

a storm of moderate energy, within whose

western and northern quadrants num-

berous showers have occurred, of which

the heaviest was at Duluth, Minn.,

Sept. 7, when it fell 1.5 inches. Clear

and hot weather now prevails in all

reporting districts south of the Canadian

border, except the Northern Rocky Moun-

tain region, the temperature having risen

decidedly since yesterday in the Missis-

sippi, Missouri, and Red River valleys,

and the upper lake region. The Dako-

tas, the present hot wave surpasses all

previous records of intense heat for this

season of the year.

Maximum temperatures of 85 or over,

were reported yesterday afternoon as fol-

lows: Davenport, 85; St. Paul, Winnipeg,

Dodge City, 85; Omaha, Kansas City,

Williamson and Pueblo, 82; Huron and Kap-

lan, 81; St. Louis, 80.

Minimum temperatures last night:

Battleford, 52; Prince Albert, 52;

Medicine Hat, 50; Swift Current, 48;

Calgary, 46; Qu'Appelle, 44;

Moose Jaw, 44; Regina, 44;

Port Arthur, 44; Helena, 44;

Bismarck, 44; Miles City, 42;

Havre, 42; Moorhead, 42;

St. Paul, 40; Huron, 40;

Marquette, 40; St. Louis, 40;

La Crosse, 40; Milwaukee, 40;

Detroit, 40; St. Paul, 40;

Davenport, 40; North Platte, 40;

Denver, 40; Omaha, 40;

Kansas City, 40; St. Louis, 40;

Dodge City, 40; Memphis, 40.

Duluth temperature at 7 a. m. today, 65;

maximum yesterday, 68; minimum yester-

day, 55.

Local forecast for Duluth and vicinity:

Generally fair tonight; showers Thurs-

day; slight changes in temperature;

winds mostly easterly, with gusts to

brisk.

JAMES KENEALY,
Local Forecast Official.

Chicago, Sept. 8.—Forecast until 8 p. m.

tomorrow: Fair and pleasant; clear

tonight; Thursday increasing cloudiness

with showers and cooler in northwest

portion; brisk southerly winds. For Min-

neapolis: Local rains late tonight and

Thursday; cooler west portion tonight;

cooler Thursday; increasing east to

southeast winds.

FAMINE IN IRELAND.

The story which comes from Ireland

of the complete failure of the harvest

and the probability of another distress-

ing famine is heart-breaking. The Irish

people have been in in-

crease in past years, and if another

famine is to visit their land their cup

of bitterness will indeed be filled to

overflowing. A London cablegram to-

day reports that a famine is spreading

throughout the island over the terrible

prospect due to ruined crops. Destitu-

tion and famine are impending, and it

will soon be necessary for the British

government to take steps to alleviate

the sufferings of the people. The potato

crop has everywhere been destroyed

wholly or in great part by blight, while

inevitable rains have practically de-

stroyed the oats and other crops. The

result is a picture of misery and ruin

which must arouse the sympathy of the

entire civilized world. A correspondent

of the London Daily News, who recent-

ly made a tour of the island, said:

"Famine stares thousands of the Irish

farming and laboring people in the face.

Reports from all parts of the country

tell the same awful, depressing tale.

The hay is rotting. The oat crop is

beaten down into the earth where the

ear in not a few cases has begun to

shoot again, and what was early cut

is badly tainted with mildew. But the

worst, the most terrible of all for the

poor classes is the dreadful blight

playing deadly havoc with the potato

crop. When all else has failed the po-

tato has been the mainstay of life for

the impoverished Irish tenant. Should

that crop generally give way the out-

look would be grave in the extreme.

Yet such a failure, unless there is an

immediate and complete change in the

weather, may be regarded as a certain-

ty."

Today's dispatches indicate that the

potato crop has been practically ruined,

and thus there is a fear that a famine

similar to that of fifty years ago will

ensue. The British government will be

compelled to buy corn in America for

the suffering people, and at the price

of that cereal it can afford to purchase

many millions of bushels.

THE BACHELOR POLITICIANS.

The recent agitation begun by Mrs.

Charlotte Smith to compel all men

above 21 years of age to become mar-

ried is beginning to receive strong en-

dorsement in Boston, where she has

been at work upon this idea. Mrs.

Smith is particularly opposed to the

bachelor politician, expressing the be-

lief that he cannot be trusted and that

no man should be given a public office

who is unmarried. She has been the

Woman's Rescue league of Boston over

to her way of thinking, and the league

has passed a set of resolutions which

set forth the following:

"The American bachelor politician

shirks his duty to the human family

when he fails to provide a home for

some good woman before he engages

In the profession of politics. There-

fore, he is not to be trusted after he

has entered the political arena where

temptations surround him on all sides,

and that unfortunately modern society

has heretofore given the political

bachelor too much latitude by ignoring

his private life.

"Resolved, that as far as practicable

a list of bachelor politicians who are

aspirants for public office be obtained

in the states of Massachusetts and New

York and formal protests be sent out

against their selection or re-election by

the Woman's Rescue league, on the

ground that they are ineligible to hold

public office."

As a result of Mrs. Smith's agitation

it is announced that Mayor Curtis of

Boston, who desires a re-election, will

be married at an early date. He has

found a lady who is willing to unite

her fortunes with his, and the date has

been definitely fixed. No doubt this

will make benedictions of every bachelor

politician in the country. It may

being within the matrimonial net the

Hon. David Bennett Hill, of New York,

who may conclude that in this way he

can again establish his political power

in the Empire state, and perchance

also cause Duluth's distinguished

bachelor politician, the Hon. Monro

Nichols, to enter into a matrimonial

alliance with some one of the charming

young ladies at the head of the lakes.

Indeed, no one can accurately predict

the growth which the movement started

by Mrs. Smith is destined to attain.

That it is creating a stir among the

politicians and inspiring fear on the

part of the bachelor ones is evident

from the quick determination reached

by Boston's young mayor.

THE NEW STATE CAPITOL.

There is a story afloat that the St.

Cloud people who are kicking strongly

because the capitol commission pre-

ferred Georgia marble to Minnesota

granite for the new state capitol have

been considering the question of taking

the matter into the courts, by apply-

ing to the attorney general for per-

mission to use his name to secure an in-

junction restraining the commission

from using the Georgia stone. The

story has some foundation, as St.

Cloud man had an interview with the

attorney general on the subject. He

did not find Mr. Childs very favorable

to the idea, however, as there seems to

be little probability that the courts

will interfere in the action of the

commission. The St. Cloud people who

want an injunction base their claims

on chapter 347 of the general laws of

1895, which says:

"He enacted by the legislature of

the state of Minnesota, Section 1—All

natural stone which shall hereafter be

used in the construction of public

buildings or other structures for which

funds shall be appropriated by the

state of Minnesota shall be quarried,

cut and dressed within the boundaries

of the state. Provided, that this sec-

tion shall not be construed as prohib-

ing the use of stone of at least as good

a quality for such institution and

buildings whenever the cost thereof is

less than that of native stone."

While the St. Cloud people construe

this section as direct and prohibitory

of the use of any stone except Minne-

sota stone, the attorney general con-

tends that the qualifying clause gives

the commission full power and author-

ity to use outside stone, as they have

decided to do. The bids for Minnesota

stone were higher than those for outside

stone, and thus the commissioners can

claim that they have acted in accord-

ance with the law. The Herald would

have preferred to have seen Minnesota

stone used, and it believes that the St.

Cloud granite would have made a hand-

some structure, but it cannot see how

any good can be accomplished now by

taking the matter into the courts, in-

asmuch as it is practically certain the

commission would be sustained. It is

a fact that the contract awarded for

the construction of the building pro-

vides for the use of a large amount of

Minnesota stone, and that the Georgia

marble will be used only as a sort of

venezian. While the capitol will be

as built entirely of marble, it will be

largely constructed of Minnesota

granite, sandstone and limestone.

IRRIGATION CONGRESS.

The sixth annual session of the Na-

tional Irrigation company is to be held

at Lincoln, Neb., on Sept. 28, 29 and 30.

While Minnesota does not need irri-

gation itself, it is interested in the move-

ment, because it vitally affects several

adjacent states, and because our mer-

chants have intimate business rela-

tions. It is hoped, therefore, that a

good representation from this state will

take part in the coming congress at

Lincoln. The call for the congress gives

power to the majority of all cities in the

country to appoint delegates thereto.

Cities having over 25,000 population are

entitled to two delegates; cities, towns

and villages with less than 25,000 popu-

lation, one delegate.

The official call for the congress

points out that the questions for dis-

cussion are of vital interest not only

to the people of arid and semi-arid Amer-

ica, but to every section of our common

country. Each succeeding session has

been marked by an increasing interest,

intelligence of discussion and broad-

ening of plans looking to the reclama-

tion of the arid West and to the estab-

lishment of independent means of liveli-

hood for the millions who are yet home-

less in a land of unparalleled resources,

with a possible destiny beyond the most

extravagant dreams of the optimist.

Problems of both national and state

legislation are to be considered. The

papers and discussions will emanate

from authorities of distinction, who

have attained their eminence by prac-

tical work, laborious study and phil-

osophic research. Subjects will be as-

signed with reference to the capabili-

ties of the authors to deal with them

in the most thorough manner possible

under the time limit necessarily im-

posed by the program committee.

Every effort possible will be exerted to

make this session the greatest in re-

sults of any convention in the history

of the movement.

ital of Nebraska, with a thrifty and

POL. VERI'S FATAL FALL.
Savanna, Ga., Sept. 8.—Col. Isaac W. Veri, at one time editor of the Atlanta Constitution, and foreign commissioner Mexico and the South American republics for the common states exposition of 1885, fell from the porch of his residence in Kirkwood, a suburb of this last night and is now dying from the effects of the fall.

KILLED BY NATIVES.
 lin, Sept. 8.—Referring to the news
 on Monday last from Sydney,
 that a party of Englishmen had
 been killed by the natives on the
 coast of New Guinea, it is
 stated that the party consisted
 of three Englishmen and two
 natives, who were killed by the
 natives. The party was
 on a mission to the coast of
 New Guinea, and was
 killed by the natives.

Beautiful Metal BEDS!

Best goods for the same money or the same money for less money than elsewhere.

An entire carload of beautiful enameled and brass trimmed bedsteads have just been placed on show in our ware rooms, and such a display of dainty bed beauty was never seen before in this neck of the woods. They have a superlative finish like white porcelain and the brass work is most exquisitely burnished and lacquered. The styles are a departure and a revelation, comprising Empire, Colonial, French, Grecian and American Scroll Patterns. The construction is on the best lines and entirely of the best malleable iron.

OHIO GOLD DEMOCRATS.

Hear an Address By W. D. Bynum at the State Convention.

Columbus, Ohio, Sept. 9.—The gold Democratic state convention met at 10 a. m. in the Great Southern theater with between 300 and 400 persons present. Judge Beer, of Bucyrus, was made chairman and after a short introductory address, stating the tenets of the National Democratic party, introduced Hon. W. D. Bynum, of Indiana, who spoke about two hours on the money question. Letters were read from Hon. John G. Carlisle and Hon. Henry Watterson.

Mr. Watterson regretted that he could not meet the true Democrats of Ohio. He was laboring unceasingly and earnestly for the end they had in view. If the party is to live there must be a restoration of Democratic principles. They demand the repudiation of the misleading theories of finance in Kentucky, he said, "we have made every reason to look for a glorious result."

Hon. J. G. Carlisle sent a long letter saying in effect that the Democrats who had remained faithful to the true principles of the party, as they were understood prior to the revolutionary declarations of 1896, should preserve their organization, and should hand-pick and prosecute vigorous contests in every state in the Union. If we honestly believe in the true Democratic course we have heretofore pursued, it is our duty, as loyal Democrats and patriotic citizens, to maintain by all the means at our command the independent and conservative position we now hold, and to appeal to our old political associates, who still entertain many opinions on public questions in

common with us to repudiate the new dangerous doctrine incoherently proclaimed at Chicago and St. Louis, and return to the simple and honest faith of the fathers.

Following is the platform: "We, the representatives of the National Democratic party in Ohio, in state convention assembled, reaffirm allegiance to the principles of the party as set forth in the platform adopted at Indianapolis in 1896. We denounce the platform which has been put forward by the party at Chicago and St. Louis, and we vindicate its strength and wisdom."

The platform declares for the maintenance of the gold standard, for the retention of the greenbacks and extensive civil service reform. It denounces the recent tariff legislation, condemns the proposed annexation of the Hawaiian Islands, and concludes:

"We disapprove the hostile action of the Republican party in Ohio in its support of the currency reform, and we express our thanks to President McKinley for his support of the merit system."

Supplementary resolutions said it was expedient to nominate a state ticket. The matter of legislative tickets was referred to the counties.

A UTAH TRAGEDY.
Park City, Utah, Sept. 4.—James Quinn, a well-known citizen of this place, shot and instantly killed himself last night and then shot himself through the head twice, inflicting wounds from which he could not recover. Strong drink is said to have been the cause of the tragedy.

MERRILL'S RESIGNATION.
Boston, Sept. 9.—The resignation of George S. Merrill, insurance commissioner of Massachusetts, has been placed in the hands of the governor, and it will probably be laid before the council at its meeting today.

CUBAN CUSTOMS TARIFF.
Madrid, Sept. 9.—The Official Gazette today publishes the new customs tariff of Cuba. Nearly all American goods are subjected to lower duties.

LUTGERT WEARY

Hot Weather Makes the Accused Wife Murderer and Jury Very Tired.

CROWD WAS SMALL

More Corroborative Testimony Piled Up Against the Big Sausage Maker.

Chicago, Sept. 9.—For the first time in the history of the Lutgert trial, no curious crowd today looked on from the benches to the criminal court building or Judge Tuthill's court room prior to the morning session of court. The public seems to have learned, after several tedious lessons, that it is useless to seek for entrance without a reasonable excuse other than curiosity. In the court room the usual crowd of spectators gathered, the women far outnumbering the men, as usual.

The big prisoner was brought into court earlier than usual and was in his seat in front of Hallitt Leed before Judge or jury entered the court room. Lutgert plainly showed the effects of confinement and warm weather, and his features were more than usual. The jury also seemed to feel the effects of the several days of hot weather and the two weeks of confinement which they have endured.

The first witness called was H. P. Kruger, the druggist who sold William Frank Black the medicine which Lutgert ordered him to purchase. The testimony was intended merely as corroborative of the watchman's statement as to time for the purpose of showing the hours between which the alleged murder was said to have been committed.

The second witness was Charles B. Gibson, the chemical expert, who was placed on the stand for redit examination in regard to his analysis of the fleshy substance taken from the victim from the vat where the state is attempting to prove the wife murder was committed.

Professor Gibson's testimony proved to be of little value to the state. Although the witness freely admitted that the bits of fleshy substance and organic matter taken from the solution were similar to human flesh, he was equally candid in his admission, upon cross examination, that he was not a chemist, but a druggist. Vincent, chief counsel for the defense, said that the fleshy substance was not the flesh of any other animal, but was human. Professor Gibson testified that a body could be disintegrated in the manner charged by the state, and that he had no objection to the state's contention that the bones would be softened and dissolved. The witness testified that the bones would be dissolved. The lawyers for the defense were highly pleased at the result of the cross-examination, and said that their case had gained as the result of the evidence.

Professor Mark Delafontaine, a Swiss chemist, was next put on the stand. Professor Delafontaine was educated only in the technical terms of English, and it was impossible for him to couch answers in language that the jury could comprehend. In addition to this defect in the manner of his testimony, the witness was questioned as to a very faulty delivery, and his low tones could hardly be distinguished by the court and lawyers, who were neither. However, his testimony was necessary to the case of the state, as without the story of experts neither the fact of Mrs. Lutgert's supposed murder nor the fact of her death can be established. Testimony concerning bones was the chief portion of the evidence submitted by Professor Delafontaine. The bits of bones which the police gathered from the refuse pile, where the ashes of the furnace were dumped, have been dumped, were submitted to him for examination. He testified that he had answered "yes" when asked whether they resembled human bones. Other of his answers were so vague and uncertain as to be valueless as evidence.

Several times the court attempted to have the witness define himself as to certain terms and expressions, but such attempts were futile. The chemist gave as his opinion that a body could be dissolved in caustic potash, heated to the boiling point, in the space of three or four hours. However, the bones and some of the ligaments and tendons remained. However, the witness would not commit himself further than he did. Gibson, who preceded him on the stand, testified that he had no objection to the state's contention that the bones would be softened and dissolved. The witness testified that the bones would be dissolved. The lawyers for the defense were highly pleased at the result of the cross-examination, and said that their case had gained as the result of the evidence.

MALTREATED A SQUAW.
And Troops Are Necessary to Effect the Ringleaders' Arrests.

Santa Fe, N. M., Sept. 9.—Maj. Nordstrom, United States agent in charge of the Pueblo Indians, has been investigating the maltreatment of an aged squaw by Indians at the instigation of the religious order known as "Priests of the Bow." The old woman was suspended by the priests until she confessed that she had bewitched the troops of the medicine men and prevented them from effecting cures. Four troops of United States cavalry will be concentrated at Zuni on Sept. 15 to arrest the ringleaders in the assault, and it is possible that the Indians will fight.

A BUFFALO FAILURE.
Buffalo, Sept. 9.—The three officers of this city of the International Fur company, bankers and brokers, of which John C. Allen is treasurer, were closed today. It has not been determined whether the company will give him a little time they would be paid in full.

THE TREASURY CONDITION.
Washington, Sept. 9.—The statement of the condition of the treasury shows: Available cash balance, \$216,249,195; gold reserve, \$145,061,435.

KENNEL CLUB DIVISION.
Toronto, Sept. 9.—The Canadian Kennel club this morning, after a heated discussion, decided to annul the existing arrangement with the American Kennel club six months from date.

A TRAITOR IN THE CAMP.

The New York Sun's Designation of Tammany.

Washington, Sept. 9.—(Special to The Herald.)—The New York Sun today prints the following:
"The Sun is more bitter in its opposition to Mr. Low than it is to Tammany."—Duluth Evening Herald.
Assuredly. The difference between Mr. Low and Tammany is that between an open enemy and a traitor in the camp."

ARMY OF WEST VIRGINIA.

Elects Officers and Holds a Big Parade.

Columbus, Ohio, Sept. 9.—At the business meeting of the Army of West Virginia today a committee was appointed, headed by Gen. I. H. Duval, of Weilsburg, W. Va., to draft resolutions on the life, character and death of Col. Starr of the Ninth West Virginia regiment. The election officers of the Ohio state, who were present, were: J. H. Duval, secretary, C. J. Roberts, Westburg, Va.; B. M. Skinner, Pomeroy, Ohio; C. J. Walker, Jackson, C. H. Va.; R. L. Columbus; J. A. Bottsford, Youngstown, Ohio; W. S. Wilson, Athens, Ohio; S. Wilson, Athens, Ohio; H. McKee, Washington, D. C.; Capt. M. Burns, U. S. A., Columbus; Thayer, Md.; Wheeling, W. Va.

In the parade today the Sixth and Seventeenth infantry, local state troops and old soldiers appeared, Col. Poland of the regular army being chief marshal.

RAILROAD MEETINGS.

Chicago-Great Western Elects Directors at Chicago.

Chicago, Sept. 9.—The annual meeting of the stockholders of the Chicago Great Western railroad was held here today. C. W. Benson, A. C. Stuckney and J. W. Lusk were re-elected directors. P. Weyerhaeuser was elected director in place of William Dawson, resigned.

The earnings of the road during the fiscal year ending June 30 were \$4,680,829.31, a decrease of \$2,361,011. It was a record for the road, however, the increase in the month of July following the close of the fiscal year. Operating expenses and renewals amounted to \$3,427,557.86, an increase of \$1,166,141. Excess of earnings over expenses, \$1,253,271.45, a decrease of \$146,306.16. Undoubtedly elected at the meeting of the directors which will be held later.

MILWAUKEE ROAD DIVIDEND.
New York, Sept. 9.—The directors of the Milwaukee Road, St. Paul and Northern Pacific, have decided to declare the regular semi-annual dividend of 2 per cent. on the extra dividend of 1 per cent. A dividend of 3 1/2 per cent. preferred stock was also declared.

THE VANDALIA'S ENSIGN.

Recovered From the Wrecked Vessel at Apia, Samoa.

Washington, Sept. 9.—The state department is informed that the standard 24-foot United States ensign which went down with the Vandalia when that war vessel was wrecked in the island wave at Apia, Samoa, has been recovered and presented to the United States consul general's office at Apia. It is carried on the property of the consul and is highly valued as a historic relic.

ANOTHER GOLD FIND.

This Time the Nuggets Are as Big as Walnuts.

Woodland Park, Col., Sept. 9.—One running 200-foot ledge has just been found one mile west of this place. Pieces of quartz the size of walnuts were taken out which were half gold. There is great excitement among mining men. It has not been demonstrated yet whether the rich ore is float or the apex of an ore chute.

ARMY RIFLE COMPETITION.

Some Good Shooting Made on the Niagara Ranges.

Buffalo, N. Y., Sept. 9.—The rifle competition for the department of the East continued yesterday at Port Niagara. The end of the third day's firing and of the first for department record gives the following for the department team out of a possible 200:
Private Kendrick, Ninth Infantry, 182; Corporal Keim, Sixth Infantry, 179; Sergeant Groth, Seventeenth Infantry, 179; Sergeant August, Seventeenth Infantry, 176; Sergeant, Branham, Sixth Infantry, 175; Private Russell, Thirtieth Infantry, 174; Corporal McCalland, Twenty-first Infantry, 172. The Seventeenth regiment, which at present shows four men on the team of 20, is stationed at Columbus barracks, Ohio.

A BIG GOLD FIND.

Said to Have Been Made Near Santa Fe.

Santa Fe, N. M., Sept. 9.—Capt. J. H. Hutchinson has arrived here from olden South, Santa Fe county, and reports a remarkable gold discovery on government land seven and a half miles east of the place. Michael Harold, of Pittsburg, Pa., while sinking a tubular well for white quartz, hit a ledge of thickness that shows free gold in large quantities.

Some of the nuggets are as large as grains of wheat. The discovery has created a furore in mining and business circles here. Working shafts will be sunk at once and other holes will be sunk to ascertain if it is a blundered discovery. This should prove the gold discovery promises to be one of the notable gold finds in the history of the West.

FIGHTING THE FEVER

Another Death at Ocean Springs From the Fever Which Prevails.

IS IT YELLOW JACK?

Doctors Hold an Autopsy to Determine Just What the Disease Is.

New Orleans, Sept. 9.—Shersey Seymour died at 1 o'clock this morning at Ocean Springs of the prevailing fever. As soon as his death was reported, arrangements were made to hold an autopsy, beginning at 9 o'clock, and that ceremony is now in progress. Doctors Murray, Carter and Weslin, of the marine and ship service, and Drs. Lehman, Dunn, Gant and Bailey are present. It is confidently expected that this autopsy will completely determine the character of the disease that is prevailing at the springs, as the case of Seymour is a new type of the worst cases at the springs.

The excitement in New Orleans is rapidly dying out, but deep interest is being taken in the situation on the coast. When the board of health office opened this morning and got down to work it had no new cases or suspicious New Orleans. Details for having occurred in the city have been so systematized now that no section is left unattended, and every case of fever, no matter how trifling, is receiving the earnest attention of the experts.

Much gratification is expressed over the appointment of Dr. Rudolph Matas as the head of the special commission representing the physicians of the city to co-operate with the officials of the board of health. Morning trains from coast towns brought few passengers. There is no longer any travel out of the city to the coast towns. Everybody who intended to come to the city has done so. The board of health is enforcing the quarantine with the strictest vigilance. Dr. Salomon's report as to the existence of two cases of yellow fever at Ocean Springs is being awaited with interest. Dr. Salomon has been authorized to communicate with the local physicians there to endeavor to locate the restriction, but, out of a mild kind, rigid quarantine will be enforced against the government experts will be sent to the city to determine the character of the disease. Dr. Salomon has had much experience in the matter of yellow fever, and his knowledge of the symptoms of yellow fever.

More reports reach the city of the hardships which the people in the quarantine towns are suffering. They find difficulty in getting provisions and other supplies, and are registering a large-sized kick against the restrictions. The authorities are endeavoring to find ways of helping them out of their difficulties.

New cases are reported at Biloxi this morning. The patients are being awaiting the arrival of Drs. Gutierrez, Murray and Carter. They will be perfectly satisfied with the diagnosis of Tackett, who went to Perkinson to assist Dr. Shedy, who had been in attendance on patients in Ocean Springs, has returned and reports that Dr. Shedy himself says the symptoms are those of yellow fever.

GOVERNMENT IS WATCHFUL.

Taking All Necessary Precautions to Stamp Out the Plague.

Washington, Sept. 9.—The yellow fever situation continues hopeful and encouraging so far as the information received at the Marine hospital is concerned. Dr. Gutierrez, the yellow fever expert telegraphed late last night from Ocean Springs to Surgeon General Weyman as follows: "Have seen today twenty-five cases of dengue, with three deaths. There are three cases. There are thirty-eight sick in town. There are new cases."

Notwithstanding the fact that Dr. Gutierrez is not yet convinced that there is a genuine case of yellow fever, the government is pushing measures to confine and stamp out the disease should it eventually prove to be yellow fever. Weyman is pushing measures to confine and stamp out the disease should it eventually prove to be yellow fever. Weyman is pushing measures to confine and stamp out the disease should it eventually prove to be yellow fever.

Arrived at 5 o'clock this evening. Tried to get through on engine but could not get permission from Mississippi board of health until 1:30 a. m. Dr. Gant, of the state board, in charge. There is a state cordon about town of twenty-five posts which state purposes to sustain for the present or until the danger increases. There are here perhaps fifty people who will accept camp. Will try to make census tomorrow as was done at Brunswick, without which there can be no clear action. Lime, sulphur, bichloride, alcohol and ovens ordered with which to begin disinfection."

By this telegram Dr. Murray meant that fifty people were willing to go into the detention camp when established and that the danger increased. The government probably will be asked for aid in the maintenance of the cordon at Ocean Springs.

Dr. Murray also telegraphed with regard to the site of the detention camp. Surgeon General Weyman will probably give him definite instructions as to the site today. The detention camp is now on its way to Ocean Springs from Waycross, Ga., and probably will arrive today. It will accommodate from 200 to 1000 persons. Everything will be in readiness to pitch the camp should Dr. Gutierrez' report that genuine yellow fever prevails. At Tampa in 1895 there was a yellow fever epidemic. The first case was very alarming. Dr. Gutierrez was dispatched to make an investigation. Posing his first case of yellow fever was prepared and after it was ascertained the yellow fever did not exist at Tampa, the case was pronounced completed and the camp outfit perfected.

IT IS YELLOW JACK.

So Say the Experts Who Have Diagnosed the Cases.

A NEW YORK FAILURE.

J. R. Willard & Co. Go to the Wall for About \$1,000,000.

New York, Sept. 9.—James R. Willard, Elmer D. Wiggins and J. D. Wiggins, who compose the firm of J. R. Willard & Co., bankers and brokers, with offices in this city, Buffalo, N. Y., Washington, D. C., Philadelphia, and Montreal, today assigned to James Starbuck, with preferences for \$20,000 to William H. Osterhout. No statement of the condition of the firm is yet obtainable, but it is estimated that their liabilities will reach \$1,000,000. Jay D. Wiggins is at present traveling in Europe.

J. R. Willard, senior member of the firm, has been a member of the Consolidated Exchange since Sept. 3, 1895. He had represented the firm in Chicago, and had a branch office in that city up to a few months ago, when it closed. The firm has been almost entirely liquidated. The cause of the failure, said assignee Starbuck, "is simply that the firm has been upon the wrong side of the market. They have been short on stocks and grain. The firm has done a big business on the Consolidated Exchange within sixty days, having run as high as 9000 to 10,000 shares of stock daily."

The assignee, Mr. Starbuck, is one of the bookkeepers of the firm. On his half annual report made the following statement: "It is difficult to tell what the liabilities of the firm are, but they will probably amount to as much as \$1,000,000. It is even more difficult to ascertain the assets. The firm has sets of the firm. Whatever they are they consist mainly of cash in hand and outstanding accounts and securities. There is some prospect of a resumption of business, provided a reasonable settlement can be made with creditors."

LAKE NAVAL RECRUITS.

Experiment of Lake Cities Enlists a Great Success.

Washington, Sept. 9.—The experiment of a naval recruiting stations on the great lakes has been an unqualified success. During Lieut. Commander Hawley's absence of several weeks he maintained temporary stations at Duluth, Milwaukee and Chicago, and established a station at Detroit, which will remain in operation for the present.

At each of these points many more able bodied promising seamen and merchant mariners than had been expected could be utilized in the service. At Duluth thirty-four enlistments were made; at Milwaukee thirty-one; at Chicago 136, and at Detroit thirty-four have been made up to the present time. Lieut. Commander Hawley will comment to Secretary Long the advisability of maintaining a permanent recruiting rendezvous in the Northwest, probably at Chicago, and will also advocate a visit of recruiting officers to Southern cities. It is the policy of the department to weed out the foreign element in the personnel of the enlisted men as rapidly as possible.

THE RETURNED KLONDIKERS.

Tell Some Stories About the Treasure Brought Down.

Eureka, Cal., Sept. 9.—J. A. Ralston, one of three Klondikers who arrived in this city on the steamer National City, states that the Excelsior would probably not bring down over \$250,000, while on the Cleveland there will be less, as the Cleveland did not obtain nearly so many passengers as the Excelsior.

R. L. Lamb, another of the National City's passengers, has changed his statement as to the amount of treasure taken down the river with the Wear. He started down the river with an amount of \$1,700,000, it is estimated that there was only between \$80,000 and \$100,000. Mr. Lamb also states that he saw no cases of scurvy among any of the people he met. Several cases were reported, however. He thinks there is danger of typhoid fever and starvation.

RYAN AND MCCOY AGAIN.

Syracuse, N. Y., Sept. 9.—George Cochran, on behalf of Tommy Ryan, and Gus Tibbitt, of New York, on behalf of Kid McCoy, have posted a forfeit of \$500 each to bring further deposit of \$2000 each for a fight between the two men to take place before the fall offering the largest purse.

The final agreement will be made this evening. McCoy said before leaving for New York that he would take down Walcott under any circumstances. "I draw the color line," he said.

VOLUNTARY MANSLAUGHTER.
Macon, Ga., Sept. 9.—Charles R. Reed, a printer on the Macon Telegraph, who shot and killed L. W. Halstead for insulting his wife at a circus performance in this city several months ago, was found guilty of voluntary manslaughter by the jury this morning and sentenced to three years in the penitentiary.

AN ENGLISH CROOK.

London, Sept. 9.—Edward Oakley, who claimed to be a doctor of divinity of Brown University, was taken into custody on charge of begging at Bow Street Police station today. He was discharged, a Commissioner's minister undertaking to take care of him. Oakley wrote to the United States embassy from the police station claiming to be an adopted son of President McKinley. The press alleged that Oakley is an old offender.

AN INDIANAPOLIS SUICIDE.

Indianapolis, Sept. 9.—O. W. Rowe, the salesman whose home is at Washington Court House, Ohio, was found dead in a room at the Spaulding house in this city this morning. Rowe had committed suicide. He traveled for an agricultural machinery company of Newark, N. J.

BUTCHER BARRIOS

Poor Guatemala In a Bad Way Both Politically and Financially.

A CRUEL DICTATOR

Many Business Failures There and War Is Certain to Begin Soon.

San Francisco, Sept. 9.—News just received from Guatemala is to the effect that the country is in a bad way financially and politically. During the last month the following failures were reported: Frederico Chacon, \$800,000; Lorenzo Eissen, \$1,700,000; Enrique Meno, \$1,000,000; Ascoli & Co., \$1,000,000; Bauer & Co., \$800,000; Victor Matheus, \$2,000,000. Total, \$7,000,000.

All of these houses have been extensively engaged in the exportation of coffee and other Central American products and the importation of merchandise. Besides, a great number of firms have gone under for less amounts. The total is nearly \$5,000,000, but it is a trifle misleading, however, because it represents Central American money, which is very much depreciated in value.

Reina Barrios, the man who was president and who declared himself dictator of the republic a couple of months ago, is excessively unpopular because of his recent high-handed action and his cruelties. There is demand that Prosper Morales, a lawyer, be chosen to succeed Barrios. To prevent this Barrios intends calling a session of the assembly very soon in order to have himself confirmed as dictator. If he is successful, war is almost certain, because the country will not longer submit to his oppression. If he is defeated, war is just as sure, because he cannot afford to be driven out of office.

Ex-President Barrios, who made it possible for Barrios to succeed him, has declared he will never again draw his sword against a fellow Guatemalan, who has threatened to expose his financial operations.

Barrios is reported to have killed a number of American citizens of his country because he thought they were not in sympathy with him. He has said these 243 men of lesser prominence are said to have been slain by his order.

IOWA'S CORN CROP.

Will Be Diminished Some By the Dry Weather.

Chicago, Sept. 9.—There is a wide range in the estimates as to the condition of the Iowa corn crop, compared with the average of past years. The average condition of corn for the state at large was estimated at 75 per cent. of the normal crop. For the three southern districts the average was 70 per cent. and for the northern and northern districts 76 per cent. The extreme heat and the lack of rain and dry winds since Sept. 1, have arrested the normal development of the corn and materially reduced the possible yield.

Judging by personal observations, and later reports from all sections, the direct loss does not appear to be serious. Condition of corn at this date, Sept. 8, is not normal. The yield of corn at the normal, and that of the yield of corn, merchantable corn will exceed twenty bushels per acre or a total of about 10,000,000 bushels. It will be in excess of this a considerable amount of immature corn of various conditions and valuable as forage for stock.

TRADES UNION CONGRESS.

Birmingham English Meeting Seeks to Remedy Evils.

Birmingham, Eng., Sept. 9.—The trades union congress today adopted a resolution recommending all societies affiliated with the congress to by all means possible refrain from abolition overtime in their respective trade.

The following resolution was then passed: "That the congress of opinion that the law as it relates to limitations of hours of work is unfair and unjust, as it punishes by fine and imprisonment any workmen if judged guilty of assaulting or preventing, through fear, any other worker from working while allowing employment to be secured by force or obtain the discharge of workmen, thus intimidating workers from pursuing their lawful employment."

The congress was instructed to at once move to extend the law to all trades and to all nations against child labor were also introduced.

ESCAPES THE GALLOW.

Murderer Robbins Dies in Jail From Consumption.

Mount Holly, N. J., Sept. 9.—James Robbins, who on the night of Aug. 8 brutally murdered his wife by cutting her throat at their home at Fieldboro, near Bordentown, died in the county jail last night of tuberculosis.

After murdering his wife Robbins was tempted suicide by slashing his throat with a razor. He was treated at the Trenton hospital, since which time he has been in the jail here.

KANSAS CITY HORSE SHOW.

Kansas City, Mo., Sept. 9.—An auction sale of fancy horses preceded the regular program at the annual horse show at Fairmont Park today. About twenty animals were disposed of at good prices. Notwithstanding the intense heat, the attendance at the show in the events undiminished.

Longer list of entries than any day so far was judged. A contest of polo ponies, shown with mallet and ball, including entries from Fort Riley, Kas., in Kansas City and St. Louis, was a novelty.

COOL WAVE COMING.

Chicago, Sept. 9.—The temperature has fallen 10 to 20 degrees in the Upper Mississippi valley, and was below freezing this morning in Alberta.

The indications are that colder weather will reach the Mississippi river tonight and be experienced in the central states Friday.

THE WEATHER.

United States Agricultural Department.
Weather Bureau, Duluth. Synopsis of
weather conditions for the twenty-four
hours ending at 7 a. m. (Central time),
Sept. 8.—The low pressure which for sev-
eral days past has induced hot southerly
winds in the Missouri and Mississippi
valleys and the Southwest, has been
brought northward and now extends
"high to the westward, and now extends
from Saskatchewan to Lake Superior. It
has caused an extension of the hot wave
eastward to Lake Superior during the
past twenty-four hours. In front of the
advancing "high" now apparently cen-
tral in British Columbia, rapid changes
to cooler have taken place in the North-
west. At Edmonton, Bismarck and Lan-
doville, the temperature has fallen 25,
21 and 19 degrees lower than at the cor-
responding hour yesterday morning. Fall-
ing below the freezing point at Calgary
and Edmonton last night.

Numerous showers are reported in the
Canadian Northwest, and then south-
ward to Helena, Bismarck and Moorhead.
Maximum temperatures of 80, or over,
were registered yesterday as follows: Du-
luth, 80; Davenport, 81; St. Paul, 80; and
Minneapolis, 80. Huron, 79; Chicago, 79;
Cincinnati, 78; St. Louis, 78; Kansas City,
77; Omaha, 76; and Memphis, 75.

Minimum temperatures last night:
Baltimore, 42; Prince Albert, 41;
Swift Current, 40; Medicine Hat, 38;
Calgary, 37; St. Paul, 36; Minneapolis,
35; Davenport, 34; St. Louis, 33; Kansas
City, 32; Omaha, 31; Chicago, 30; Cin-
cinnati, 29; St. Paul, 28; Minneapolis,
27; Davenport, 26; St. Louis, 25; Kansas
City, 24; Omaha, 23; Chicago, 22; Cin-
cinnati, 21; St. Paul, 20; Minneapolis,
19; Davenport, 18; St. Louis, 17; Kansas
City, 16; Omaha, 15; Chicago, 14; Cin-
cinnati, 13; St. Paul, 12; Minneapolis,
11; Davenport, 10; St. Louis, 9; Kansas
City, 8; Omaha, 7; Chicago, 6; Cin-
cinnati, 5; St. Paul, 4; Minneapolis,
3; Davenport, 2; St. Louis, 1; Kansas
City, 0; Omaha, -1; Chicago, -2; Cin-
cinnati, -3; St. Paul, -4; Minneapolis,
-5; Davenport, -6; St. Louis, -7; Kansas

ng Herald always get full value.

is a specific. One dose removes all distress, and permanent cure of the most chronic and severe case is guaranteed. Do not suffer! A 50 cent bottle will convince the most skeptical.

MINERS DISAGREE

The Convention at Columbus Seems to Have Struck a Big Snag.

UNEVEN BENEFITS

What Would Help Some Districts Would Do No Good to Others.

Columbus, Sept. 8.—The national convention of the United Mine workers has struck a snag. The delegates have grown a feeling that the delegates from Ohio and Pennsylvania would be the beneficiaries. There are men of this belief in Illinois, Indiana, Ohio and West Virginia. The first states being practically unanimous. President Knight and Secretary Kennedy, of Indiana, believe a settlement on the basis proposed would set matters in Pennsylvania, Ohio, Indiana and Eastern Illinois, but would have little or no effect in Northern Illinois. These men are substantially in favor of a continuance of the strike. The delegates from Illinois and Indiana, so far as can be learned, are the ones being held with closed doors, are acting in harmony.

Certain Ohio delegates are standing West Virginia, as a settlement without advantage to that section from the miners' point of view. The lowest wages they have been paid was 34 cents per ton and a settlement at the proposed Pittsburgh rate of 55 cents would only increase the Masillon rate 2 cents per ton. They want a differential of 10 cents between the Masillon and Hocking valley fields. President Carson, of Northern Illinois, says they are not out whether the strike is settled or not.

The Masillon, Ohio, delegation is numbered among those who object to a settlement as proposed. They say the lowest wages they have been paid was 34 cents per ton and a settlement at the proposed Pittsburgh rate of 55 cents would only increase the Masillon rate 2 cents per ton. They want a differential of 10 cents between the Masillon and Hocking valley fields. President Carson, of Northern Illinois, says they are not out whether the strike is settled or not.

EVICTING THE MINERS.

It May Cause Some Trouble at De Armit Mines.

Pittsburgh, Sept. 9.—The work of evicting the striking miners at Plum Creek and Clarksville was begun today and as the result of two evictions, a serious trouble is threatened by a mob of women, who are armed with clubs and baseball bats, and are waiting for the arrival of Superintendent De Armit and the deputy sheriffs.

At 8 o'clock this morning sixteen deputies evicted James McCabe and his family from one of the company houses at Plum Creek. Little resistance was offered at the time, but as soon as the house had been cleared and the furniture piled up in the middle of the street, the women, who were in front of the house of the evicted family. After they had gone the strikers entered the house and carried the furniture back. Desperate resistance will be offered in case a second attempt is made to evict the family.

Three hours later the sixteen deputies arrived at Clarksville and evicted John Puke and his family. They are Polish people, but have many friends at Clarksville. The same tactics were resorted to there after the deputies had completed their mission. The furniture was carried into the house and placed in the middle of the street. Puke's family and several friends have installed themselves in the house and are prepared to make trouble for the deputies if they again attempt to evict them.

SONS OF VETERANS.

Annual Encampment Has Opened at Indianapolis.

Indianapolis, Ind., Sept. 9.—All things at the state here had an intense military bearing this morning. At the entrance to the capitol a big brass cannon looked down Market street toward Monument place. The broad corridors inside of the building were festooned with flags and bunting. Under the high blue dome sat a Gating gun and a caisson, and small arms were stacked about. Unarmed men and women wearing long red, white and blue badges came to the capitol and entered the halls which had been set apart for their accommodation. The occasion of this military display was the meeting of the sixteenth annual encampment of the Sons of Veterans of the United States. The first session opened in the hall of representatives at 9 o'clock, and was called to order by President J. L. Drake. Five hundred delegates were present. President Drake delivered his annual address, after which Charles Bookwalter extended the welcome of the state to the visitors. The session was occupied by the reading of annual reports and other routine matters. It is the largest encampment in the history of the organization.

Sixty-five delegates representing the Ladies Aid society, auxiliary to the Sons of Veterans, met in the senate chamber. They were welcomed by the division commander of the National division of the Sons of Veterans, Miss Kate G. Raynor. Tolson, the national president, responded to these delegates, and after a number of minutes the annual reports were filed. Both organizations show a marked increase in membership during the past year.

Tonight the governor holds a reception in honor of the two bodies, and tomorrow a parade of 2000 marchers will take place.

H. Loebenstein, quartermaster general, submitted his report. It showed total cash receipts for the year ending Aug.

20,000, \$10,000, with expenditures of \$400,000. A supplementary report shows that while the decrease in revenue amounted to \$100,000 the surplus is but \$50,000 less than it was at the close of the preceding administration. Emergencies may arise that will necessitate increasing the revenues, the report says, and if this emergency shall fix the council-in-chief should be empowered to raise this amount.

The encounter was refused to admit Fremont Pletz, of Riverside, N. J. Pletz says that last year he had the position of senior in command in the decision of Commander-in-Chief Rake. It was held that Pletz was illegally mustered into the ranks of the United States. Mr. Pletz says his official commission was taken from him last year when he was expelled from the ranks of the order.

MICHIGAN'S PEACH CROP.

Trees Loaded With the Luscious Fruit—its Culture.

Along the eastern shore of Lake Michigan from New Buffalo to Leelanau county is the greatest fruit belt north of the Ohio river, according to the Detroit News Tribune. It is a strip of land covered with peach trees, 200 miles long and from three to twenty miles wide. Here is raised the best flavored and most perfect peach in the whole world. Every farmer raises peach orchards, and the industry of Western Michigan is one of vast proportion, employing thousands of employees and setting hundreds of thousands of trees. Every spring there are published predictions that the peach crop will be a good one, but never has there been a decided failure in Michigan. The peach orchards, especially those in Van Buren and Berrien counties, are in fine shape and are ready to the ground with young fruit this year. About ten acres planted to peach trees are in the hands of one family, and the care of, though there are orchards that contain hundreds of acres. There are not enough trees to be found in a peach orchard to fill a straw hat, as they are cultivated more times than a prize corn plant. The trees commenced bearing the third year, and increase their product until they are six or seven years old. Then they are supposed to have reached maturity. There are some orchards near South Haven that have twenty years old and continue to grow a full crop of peaches each year.

Early in the season after the blossoms have fallen and the fruit has first assumed form the practical peach grower has to look after his trees with care about half the baby peaches, and second, if left alone the weight of all the fruit would break down the trees. Even if the trees are not broken down, the weight of the fruit would destroy the balance in many instances grow so large as to break the limbs. There is hardly a grower who has what is known as a "big peach" but has a few trees that are "big peach" trees.

There is great rivalry among the growers as to who will get the first peaches on the market. The first peaches are picked and hurried away. At this time they are hard as bullets and scarcely fit to eat, yet by the time they arrive in market they commence to rot and are soon thrown away. That accounts for the saying, "No peaches to eat in the peach orchard." There are a dozen or fifteen factories scattered through the fruit belt making crates, crates and baskets and employing a large number of men. It is estimated that the receipts for the peach crop of Western Michigan last year were near the \$2,500,000 mark.

GAVE HIM A FAST RIDE.

Courtship of a Conductor Brought to a Termination.

On the Southern Pacific railway in California, not far from Mojave, is a little station, a "spur track," a box car for a telegraph office and a section house, comprising the whole of the station. Anaconda Standard. The station house, or, as was, presided over by a handsome and heavy Irish woman, who kept house for her husband. The "hands," being Chinese, looked on the duties of the agent consisted of (one) to see that the passengers of trains (none of them stopped) and (two) to see that the passengers of trains (none of them stopped) and (three) to see that the passengers of trains (none of them stopped) and (four) to see that the passengers of trains (none of them stopped) and (five) to see that the passengers of trains (none of them stopped) and (six) to see that the passengers of trains (none of them stopped) and (seven) to see that the passengers of trains (none of them stopped) and (eight) to see that the passengers of trains (none of them stopped) and (nine) to see that the passengers of trains (none of them stopped) and (ten) to see that the passengers of trains (none of them stopped) and (eleven) to see that the passengers of trains (none of them stopped) and (twelve) to see that the passengers of trains (none of them stopped) and (thirteen) to see that the passengers of trains (none of them stopped) and (fourteen) to see that the passengers of trains (none of them stopped) and (fifteen) to see that the passengers of trains (none of them stopped) and (sixteen) to see that the passengers of trains (none of them stopped) and (seventeen) to see that the passengers of trains (none of them stopped) and (eighteen) to see that the passengers of trains (none of them stopped) and (nineteen) to see that the passengers of trains (none of them stopped) and (twenty) to see that the passengers of trains (none of them stopped) and (twenty-one) to see that the passengers of trains (none of them stopped) and (twenty-two) to see that the passengers of trains (none of them stopped) and (twenty-three) to see that the passengers of trains (none of them stopped) and (twenty-four) to see that the passengers of trains (none of them stopped) and (twenty-five) to see that the passengers of trains (none of them stopped) and (twenty-six) to see that the passengers of trains (none of them stopped) and (twenty-seven) to see that the passengers of trains (none of them stopped) and (twenty-eight) to see that the passengers of trains (none of them stopped) and (twenty-nine) to see that the passengers of trains (none of them stopped) and (thirty) to see that the passengers of trains (none of them stopped) and (thirty-one) to see that the passengers of trains (none of them stopped) and (thirty-two) to see that the passengers of trains (none of them stopped) and (thirty-three) to see that the passengers of trains (none of them stopped) and (thirty-four) to see that the passengers of trains (none of them stopped) and (thirty-five) to see that the passengers of trains (none of them stopped) and (thirty-six) to see that the passengers of trains (none of them stopped) and (thirty-seven) to see that the passengers of trains (none of them stopped) and (thirty-eight) to see that the passengers of trains (none of them stopped) and (thirty-nine) to see that the passengers of trains (none of them stopped) and (forty) to see that the passengers of trains (none of them stopped) and (forty-one) to see that the passengers of trains (none of them stopped) and (forty-two) to see that the passengers of trains (none of them stopped) and (forty-three) to see that the passengers of trains (none of them stopped) and (forty-four) to see that the passengers of trains (none of them stopped) and (forty-five) to see that the passengers of trains (none of them stopped) and (forty-six) to see that the passengers of trains (none of them stopped) and (forty-seven) to see that the passengers of trains (none of them stopped) and (forty-eight) to see that the passengers of trains (none of them stopped) and (forty-nine) to see that the passengers of trains (none of them stopped) and (fifty) to see that the passengers of trains (none of them stopped) and (fifty-one) to see that the passengers of trains (none of them stopped) and (fifty-two) to see that the passengers of trains (none of them stopped) and (fifty-three) to see that the passengers of trains (none of them stopped) and (fifty-four) to see that the passengers of trains (none of them stopped) and (fifty-five) to see that the passengers of trains (none of them stopped) and (fifty-six) to see that the passengers of trains (none of them stopped) and (fifty-seven) to see that the passengers of trains (none of them stopped) and (fifty-eight) to see that the passengers of trains (none of them stopped) and (fifty-nine) to see that the passengers of trains (none of them stopped) and (sixty) to see that the passengers of trains (none of them stopped) and (sixty-one) to see that the passengers of trains (none of them stopped) and (sixty-two) to see that the passengers of trains (none of them stopped) and HE TOLD THEM WHY.
Sheriff Sargent Explains Why Merchants Advertise Friday Evening.

William C. Sargent, now sheriff of St. Louis county, was at one time one of the best advertisers in Duluth, and he has in the past devoted a good deal of time and attention to the study of the art. He knows when to advertise, and how to advertise, and so the few remarks he made extemporaneously last Friday evening while riding in a well-filled advertising stage were both interesting and instructive to everyone who heard him. A gentleman sitting on the opposite side of the car was reading the Friday Evening Herald and asked him to fill the advertising pages. Sargent asked him why he wanted advertisements appeared in the paper every Friday. Sheriff Sargent knew

ny and told him.

"The majority of all classes are as a rule," said he, "paid on Saturday. Mothers plan to buy clothes for their children on that day, that they may have them in clean Sunday; they purchase the milk and butter in large quantities, and nine out of ten men who receive their pay on Saturday patronize the clothing stores then for any thing they may be in need of. The housekeeper Friday night plans for Saturday dinner, and I know of my own knowledge that a great many people wait until Friday to buy their groceries offered in the Friday Herald, and reading them on that evening, all the members of the family have a chance to see the prospective purchases of the morrow. The prospective purchases of the morrow, therefore, are the reasons why the Friday Evening Herald is so popular as an advertising medium."

A RED HOT NIGHT.

One of the Warmest Duluth Has
Ever Known.

Yesterday was the most remarkable day of the year as far as temperature is concerned. The thermometer did not go as high as on Saturday, when it registered 88.9 degrees, yesterday's showing being 88.7 but the heat was

continued longer. At 7 o'clock last evening it stood at 83 degrees, and the lowest point reached was 74 degrees at 6 o'clock this morning. This is the highest minimum temperature recorded this summer, and probably in several years. A decided change is predicted for to-

Congressman Hooker Arrives

Congressman W. B. Hooker of New York, chairman of the committee on rivers and harbors, arrived in the city this morning, accompanied by F. R. Green. The gentlemen were taken in charge of by G. G. Hartley, who assumed the task of entertaining them.

ney left with Mr. Hartley over the Duluth & Iron Range road this afternoon for Virginia. This will be Mr. Hooker's first visit to the Minnesota iron mines, and after looking over a number of properties the party will return to Duluth tomorrow or Saturday in time to catch the North Land.

Demands Reinstatement.

...ne officers recently dismissed from the police force. The ground for the demand is that Kimball is an old soldier, it being set forth that he served one year and six months in Company D of the Twenty-seventh regiment Michigan Infantry.

Going to New Zealand.
George H. McEwen, for a long time clerk at the Spalding, will sail next month to New Zealand, where he will engage in the business of exporting butter and cheese to England. His father is already there engaged in that trade and has made him a very

attering offer to join him. He will
all from San Francisco early in Oc-
tober, land at Honolulu for a short
time and then proceed direct to Auck-
land.

BUCK AND BEAR FIGHT.

Too Much For Bruin In the Last Round.

pressed an interesting tussle between a big buck deer and an old bear one day last week, says the New York Mail and Express. Lane was eating his morning meal, when he heard a tremendous rumpus outside the cabin. He grabbed his gun, whistled to his dogs and ran out.

The battle was a royal one, but the advantage was with the buck, which was more agile than Bruin, and as the war rose time and again to seize the buck in his claws the deer gored him with his terrible forked antlers. Lane held his dogs, as he was afraid they would attack the deer, which

ould have brought him in conflict with the law. He watched the battle until the buck, with a bound, jumped clear over the bear, and before his antagonist could meet his new move impaled him on his antlers and tossed him into the air a dozen feet.

struck the buck was upon him with four sharp hoofs, stamping him like a battering ram. This, it appeared, was much for the bear, and, picking himself up, he beat a hasty retreat. The bear gave a snort of triumph, and, seeing the dogs, which were tugging at their leash, bounded away and was

We sell only the best Clothing, Hats, Furnishings and Shoes we know how to buy. Should anything bought at this store turn out unsatisfactory in any way, we will make it satisfactory in some other way. Can anyone do better than that?

Every Department in the house is abloom with the fresh beauty of New Fall Goods.

Men's Suits.

It is conceded by the entire buying community, as well as our competitors that we carry a larger stock of Suits than any other two stores at the head of the lakes. This year we are better prepared than ever to sustain that reputation. We bought them for cash and will sell them on a very close margin of profit, and we propose to do this season as we have always done, lead in the beauty of our styles and fashions. It will pay every buyer of clothing to figure with us this fall before spending a dollar. Last Saturday we advertised some Special Suit values and they gave such general satisfaction that we repeat them again tomorrow.

\$6
\$8

Five new styles in New Green and Brown mixtures, also Dark Brown effects in single and double breasted.
Ten styles Blue and Black Cheviots, Fancy Brown Plaids and Neat Gray Cassimeres, made up single and double breasted

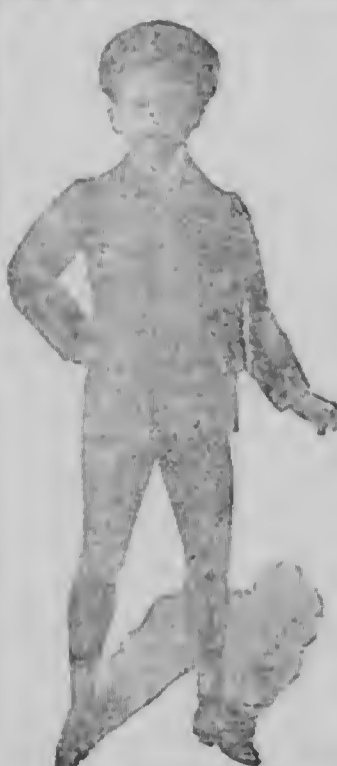

For the Great Popular prices of **\$10, \$12, \$15**

We have made the most careful selections in the very choicest patterns in Brown Plaids and Fancy Cassimeres, made up single and double breasted styles, cut in the new lengths, trimmed artistically with heavy serge linings, and made up by the best skilled labor. The trousers are cut in narrow legs and shaped to the limbs in a style only produced by artistic tailors.

NEW FALL OVERCOATS Our new Fall and Winter Overcoats are; we think, the most handsome we have ever shown. Kerseys, Beavers, Chinchillas, every suitable cloth in fact. We were mistaken last year when we thought our overcoats couldn't be improved. This year they are more **\$8, \$10, \$12, \$15, \$20** stylish than ever. Prices

Boys' Dept.

The merry ring of the school bell will soon be here—and the big and little Boys will have to have new Clothes—No mother

can afford to pass the opportunities at this store, nothing like it in the west. The great advantages of finding everything the Boys wear under one roof, and at much Lower Prices than other stores must be appreciated by every parent.

BROUGHT TO BAY

News Tribune Finds Itself Smeared With Mud of Its Own Creation.

ITS BLUFF CALLED

Article Slandering Duluth Originated in Its Editorial Department.

The terrific bluff which the News Tribune has been putting up for several days past has been exposed and that paper is in a most unenviable position. Columns of its space have been used in attempting to besmirch the character of the Herald in connection with the libelous dispatch sent out in regard to Duluth's financial condition, and now it finds itself swallowed up in its own mire of treachery and maliciousness with which it charged others are laid at its own doors. It was a bluff, had bluff and the St. Paul Dispatch called it.

The business men and city officials and citizens in general were astounded when they read in the editorial columns of the Dispatch today that the author of the article was a member of the News Tribune's editorial staff. They expressed their indignation in very decided terms. The opinion is general that some dark plot has been hatched and that the News Tribune has been carrying out a deliberately planned scheme of some sort.

The consensus of opinion around the city hall was to the effect that an apology ought to come in somewhere about this time and that the News Tribune paper owes it as a duty to make amends, as far as it can, for the libel that was hatched out in its office. The St. Paul Dispatch editorial stating where the libelous telegram originated was read with interest—with more interest than surprise.

"The News Tribune owes an apology to the people of Duluth and to the Herald as well for trying to shift the blame on it," said Secretary Helm of the park board. "It is our duty to the people to state the facts."

Assistant City Attorney Rustad remarked that it was a good one. He seemed to think the only thing the paper could do would be to come down the pole the shortest way.

Assessor Hawkins thought it put the News Tribune in a corner, but he was wrong for an impressive exhibition of the mastery ingenuity of the paper in the wriggling out of a tight place before it finally took its medicine.

S. Silbertson—I paid very little attention to the articles, feeling sure there were colors of sensationalism in the woodpile when the News Tribune was making such a stand for the city. In some places the reporters of such an outrage would be publicly whipped before being tarred and feathered and sent out of the city.

Simon Clark—It was a disreputable piece of business and I am sure will do the News Tribune no good.

William White of Pantan & White—Queer business I should say.

Just to think that the News Tribune and with the News Tribune no friends.

W. M. Abrahamson—It would have been mainly in the News Tribune to have acknowledged its mistake in sending out the dispatch, but their attempt to put it on the Herald has certainly been a despicable piece of business.

George R. Laybourn—My! That is a corker. The News Tribune should have been satisfied with sending out the dispatch and dropping it there for this is an awful release.

Frank Burrows of the Great Eastern—The dispatch has done a great deal of harm as I have seen it in a number of Eastern papers and with very sensational headlines. The action taken by the News Tribune in sending out the dispatch and then changing it up to the Herald certainly shows a peculiar type of newspaper conduct.

Fred Kugler—Just a day or two ago I was talking about this matter with a man on Superior street between Third and Fourth avenues west and he remarked then: "If the truth were to come out I'll bet the author of that dispatch would be found in a building on this side of Third avenue." He was right. It's the rottenest thing I ever heard of.

R. C. Mitchell—The News Tribune seems to be in a pretty big hole just now.

Frank Crasswell—Well, that is a red hot one! Now is the News Tribune going to crawl out of it now?

County Treasurer Whipple—I never at any time believed that any employee of the Herald sent out that false and libelous article, and I am surprised that any Duluth newspaper man should have done so.

County Clerk John Owens—I am glad that the authorship of that dispatch has been traced. It looks as though there might be a deeper laid plot than appears on the surface. No letter was forwarded to the city in its attempt to build an independent water plant could be chosen that to attack its credit and thus force it to drink bad water or buy the old plant at the company's price.

W. C. Shorwood—No punishment is too great for the man that sent out that dispatch. It was a deliberate attack on the city's credit and at a time when everyone is beginning to see day-light after a hard struggle.

J. A. Ferguson—It is pretty rough. Well, that ought to finish it.

Probably the News Tribune will endeavor to extricate itself from the hole in which it has been placed by discharging one of its employees and announcing the fact with a flourish of trumpets, but it cannot by making a scapegoat in this way convince the people of Duluth that it had no hand in the publication of the libel.

An Alaskan Resident.

Rev. W. W. Warner, of Chitkat, Alaska, spent several days in the city the first part of this week.

Mr. Warner was a student in college twelve years ago under the instruction of Rev. T. M. Findley. He addressed the congregation of the Second Presbyterian church Sunday evening last.

He has resided in Alaska for the past six years, this being his first visit to civilization during his absence. He started on his return trip Monday evening. Mr. Warner was accompanied by his wife and family.

Gronseth & Olson

A PHRENOLOGICAL EXAMINATION.

If you want to know how to become a great man, my boy, you must learn how to develop your brain. Big men are not always great men. Be industrious, economical and prudent. Learn how to take care of the pennies and the dimes will take care of themselves. Have one aim in life and stick to it like the hore. Learn how to manage your own business without fail. Don't fall and then run into politics. A man who fails to succeed for himself is not fit to manage public affairs. Don't undertake more than you can perform. Retrench your self-esteem and retain your forces of economy and your services will be appreciated by the public. Some day you may grow up to be a big man, and by using "Nansen's" Entire Wheat, you will be a man of brain, able to stand financial strains—A GREAT MAN.

SATURDAY WE OFFER:

"Nansen's" Entire Wheat, 12 1/2-lb sack **39c**
"Nansen's" Fancy Patent, 49-lb sack **\$1.40**

Gronseth & Olson

THE LAST BUT ONE.

Not the Last Piano But the Last Day When You Can Buy One.

Only twelve hours more remain, after tonight, when you can take advantage of the great assurance piano sale which I have been conducting at No. 222 West Superior street. Twelve hours more, just half a day practically, and your chance to purchase an instrument at below cost will be gone for all time.

When I am gone you will daily-daily about Duluth, with regular retailing really needing a piano, you will finally pay from \$250 to \$300 for one that is not as good as this splendid bargain which I am going to particularize right here. For only \$157 I will sell you to-morrow night a beautiful upright Smith & Barnes piano which will outshine and outplay any instrument you can purchase in the city for anywhere less than \$257. You can prove this statement yourself in half an hour's time. All that it requires on your part is haste, discernment and decision. You must hurry because I close the sale tomorrow night. You must be discerning so that you satisfy yourself that you are getting just what you want. You must have decision because if you don't act at once your chance will be gone. If you don't like the Smith & Barnes you can look at a New England upright for \$135 or a Smith & Co. upright for \$125. You pay \$25 down, \$19 a month. Tomorrow is the last day.

A. E. WHITNEY.

222 West Superior Street.

LET THIS SUFFICE.

St. Paul Dispatch of Sept. 9: A special dispatch from Duluth, published in this paper a few days ago, has been the occasion of some very warm criticism on the part of the Duluth News Tribune, which denies the authenticity of the statements concerning Duluth's financial condition and "takes it out" on the Dispatch. We are not at all averse to ordinary criticism, and upon proper provocation might be driven into a friendly tilt with our esteemed contemporary at the head of the lakes.

Upon this occasion, however, we do not feel called upon to answer in the glib vein which the News Tribune adopts in discussing the Dispatch and the special referred to. The announcement that our authority for the statements made was a gentleman immediately connected with the editorial department of the News Tribune itself, will be amply sufficient for every immediate purpose, and should serve to quell the tempest in the office of that esteemed paper.

FAIR RATE TO THE FAIR.

NEW DULUTH DOINGS.

New Duluth, Sept. 11.—(Special to The Herald.)—In spite of the disagreeable weather, New Duluth was practically deserted, as nearly every one celebrated Labor day out of town. Mr. and Mrs. G. W. Keyes and guests dined at Lester Park Monday.

Max Vollenstien returned Monday from a two week visit with friends in Detroit, Mich.

Mrs. Robert Murphy was calling on friends here Tuesday, previous to starting for Spokane Falls, Wash., where she expects to reside for the winter.

Mr. McCulloch, of the Musser-Sauntry Lumber company, was looking after his interests here Tuesday.

Charles Hill returned Wednesday from Ann Arbor, Mich., where he has been visiting with his family.

Mrs. George Clifford and daughter, Georgie, left Wednesday for Michigan City, Ind. Miss Georgie will attend school there this winter. Much regret is felt at their departure, as New Duluth cannot afford to lose any of her children.

The Presbyterian Ladies Aid society served ice cream at the Stewart block Thursday evening.

Rev. F. E. Higgins and wife dined with some Duluth friends at Fond Du Lac Wednesday.

Mr. and Mrs. W. H. Miller were visitors at Duluth Monday.

Mrs. Fred Hermann made a trip to West Superior Tuesday.

Philip J. O'Leary left Monday to visit his parents in Canada. He will be absent about two weeks.

Mrs. Louise Wilson left Wednesday, who have been the guests of Mr. and Mrs. G. W. Keyes, left Wednesday for their home in Cleveland.

Mrs. W. N. Bowser, who has been visiting her relatives in Milwaukee for some time, returned Thursday.

Among Friday's visitors to the city were Mrs. Bert Laidley and Mrs. William Smith.

Mrs. Bert Hartman is visiting her sister at West Duluth.

Christopher Christopherson left Thursday for Watertown, N. D., to see his wife, who is visiting her sisters at that place. Mrs. Christopherson has not improved in health any, and unless a change for the better occurs before her arrival, she will be taken to the Purgis Falls asylum for the insane.

Mrs. Anna Wilson left Wednesday for Fairbairn, to place her little nephew, Peter, in the deaf and dumb institute.

Miss Cecelia Le Beau, of West Duluth, was entertained by Miss Belle Hermann this week.

Mr. and Mrs. Clay Giddings were visiting Mrs. Giddings' parents over Sunday.

Miss Agnes Wilson, who has been visiting Rev. and Mrs. Higgins, returned to her home in Minneapolis Wednesday.

Joseph Le Beau, of the Le Beau Lumber company, is quite ill.

Misses Edith and Della Hermann entertained a party of friends at their home Friday evening. A very enjoyable time was had. The invited guests were the Misses Kate and Grace McLean, of Duluth; Cecelia Le Beau, of West Duluth; Lottie Watson, of Spirit Lake; Lottie Watson, of Miller; Nellie Crockett, Gertrude Keyes, Belle Hermann, of Duluth; Miss Edith Schwank, of New Duluth; Messrs. Emil and Fred McGill, Edward Hermann, John Munroe, of Duluth; Charles Carrell, Harry Gilbride, Arthur Beckinger, George Walton.

EVELETH.

An occasional dog fight is the only thing of special interest in Eveleth these days, says the Star.

The Colonial Iron company have an engine and boiler waiting in readiness at their plant on section 25.

The school attendance has now run up to 29.

A steam shovel is now at work removing the Adams stock pile.

Henry Kevan has named his youngest son Charles Towne Kevan.

Miss Jennie Prager left Saturday, in company with her father, for Wisconsin, where she will attend the state normal.

Miss Kate Rindland, sister of Mrs. J. C. McGreevy, came up from Two Harbors last Saturday, and stayed at the house of her sister a few days.

James W. Falk is at St. Paul attending the state fair.

Mrs. W. H. Harding and Mrs. J. H. Harding are spending a few days in Duluth visiting friends.

Mr. and Mrs. George Payne left last week for a two weeks' visit among friends in Fargo, Minn.

Mrs. Alton Streeter, mother of Mrs. McKee, arrived from Milwaukee today. She will visit a few weeks here with her daughter.

James Vivian returned last week from a two weeks' trip to Chicago, Milwaukee and St. Paul, and other points in Minnesota and Wisconsin.

Miss Beatrice Wallace leaves today for Duluth to attend school at Maynard Hall.

The special school meeting, held in the city hall last Saturday evening, was but poorly attended, and the discussion as to how the resolution should be put and the equalizing of the \$12,000 bond and the \$20,000 bond for the bond and 4 against it. It is said that the vote will begin very soon in the erection of a 4-roomed addition to the Eveleth school and a new building at Virginia.

BIWABIK.

The Drake & Stratton company did not start another steam shovel this week as intended, says the Biwabik Range. It appears that the Biwabik Range company made a sale over recently for this season's delivery, but after figuring for lake tonnage found that freight would be too high to leave any margin. Therefore the sale was cancelled and the Drake & Stratton company notified not to do the job of stripping.

The Colonial Iron company, of which Harry Roberts is manager, has transferred its affections from the Biwabik to section 25, near Eveleth. This property was prospectively to be sunk at a depth of 25 feet under the direction of Capt. Richard Sellwood. There is a large amount of iron ore there and Capt. Roberts announces that shipments will be started next season.

Gulbranson Bros. have received a contract to strip 50,000 yards of earth from the Aetna mine at Mountain Iron, 20,000 yards to be mined before Nov. 1. About 100 men will be employed. W. A. Thomas, of the Thomas Furnace company of Niles, O., was at the mine last week, accompanied by C. E. Bailey, Virginia, George St. Clair and John Gulbranson. The Thomas Furnace company is interested in the property.

Gulbranson Bros. have shifted their Ohio mine, to the new strip of the Mescal mine, which was at the Mescal mine, northeast of Hibbing. They now have about 175 men employed

there, and are rushing the work. The strip is about three miles in length and leaves the main tract about one and a half miles south of Hibbing.

Mrs. A. A. Talle returned home from Purgis Falls last Friday. Mr. Talle went to Duluth to meet her. She has entirely recovered from her recent illness.

It is reported that Benny Johns, who went to South Africa about two years ago to seek his fortune, died of yellow fever recently.

The night switching crew in Duluth and Iron Range yard has been laid off and also the engine crew formerly at the Fayal.

TOWER TOPICS.

Tower, Minn., Sept. 11.—(Special to The Herald.)—On Saturday evening, Sept. 11, the Rev. E. A. Allen, of St. Paul, will give an illustrated lecture in the City opera house, on "New America and the Klondike."

The Chicago Record's petitions for postal savings banks have reached our city and are being signed by many signatures.

The Swedish Free Mission society is preparing to erect a place of worship on Second street, near the Presbyterian and Swedish Lutheran edifices.

C. O. Hamlin, of Marquette, Minn., was the guest of C. Erickson on Wednesday.

Archdeacon T. H. M. Appleby, of the diocese of Minnesota, will hold divine service at St. Mary's church tomorrow, at 11 a. m. and 8 p. m.

General Manager W. R. Walker, of the Illinois Steel company of Chicago, accompanied by Mr. J. Walker, Miss C. Fisher and Miss R. Walker, spent Tuesday here.

William Allan, of New York, and W. Trask, of Ardmore, I. T., were registered at the Vermilion on Tuesday, and spent Wednesday visiting the beauties of Lake Vermilion.

Rev. A. Olson, of West Superior, baptized by immersion in Lake Vermilion six converts to the Swedish Free Mission society Sunday last.

Dr. Hutchinson, of Lake Geneva, Ill., is the guest of Capt. Morcom. The doctor was a former resident here, having had charge of the hospital at Soudan, and has many warm friends among our citizens, who are retired from active practice and conduct a farm near his home.

Mr. and Mrs. G. Ketchum gave a water party to their friends on Wednesday. The steamer Holland conveyed the party, among whom were Mrs. Nina Wilkins, of Evanston, Ill.; W. R. Fisher and son, and the Misses C. Fisher and daughter, Lulu, at the residence of Mr. and Mrs. G. Ketchum.

A. G. Kingston, accompanied by his wife, son, and daughter, Lulu, are in attendance at the state fair. Mr. and Mrs. G. Ketchum are also in attendance.

Friends of Mr. and Mrs. Gust Horklund tendered them a surprise party on Monday evening last, on the occasion of the first anniversary of their marriage.

Miss Elsie Congdon, returned from her visit at Duluth on Saturday last, accompanied by her sister, Mrs. A. Congdon.

J. N. Burgess departed on Saturday morning for a week's vacation at the Twin Cities.

Rev. J. Wilson, of Duluth, will occupy the pulpit at the Presbyterian church tomorrow.

Rev. E. N. Raymond, of Duluth, who has spent the past week receiving his acquaintances, returned to his home on Monday.

Mrs. D. McCarthy departed for Duluth on Thursday.

Apprentice among the state fair visitors this week.

D. H. Bacon returned from his business trip to Chicago Monday.

Mrs. A. McGuirk is visiting friends in Minneapolis, having departed for that city on Friday last.

The Misses Hattie and Allie Morcom went to Duluth on Saturday.

Mrs. C. E. Dymond, of the W. H. Wheeler, Mr. and Mrs. W. N. Shepard and the state fair will attend the state fair this week.

Mrs. J. Robinson, who had been the guest of Mrs. D. H. Bacon for a few days, has returned to her home. Mrs. Robinson has closed a contract for the purchase of a few logs at the head of the lake this week.

About twenty lady friends of Mrs. W. H. Matt, of Duluth, were present at a progressive pedro on Tuesday afternoon.

E. F. Chalk was the only citizen who displayed his patriotism on Labor day. He had the stars and stripes flying from the flag pole at his residence.

Loggins' contract of the Tower Logging company, of this city, for the cutting and transporting logs to the mills here will be finished within twenty days. The last contract was for 100,000 feet.

The steam shovel at Soudan is idle Thursday owing to lack of cars. About next Thursday it will finish its work for this season, having by then moved all the ore in stock piles.

C. P. Payne, who has assisted Agent C. D. Pegelow at Tower Junction since the past three months, departed Tuesday for his home at St. Paul.

The Howe Lumber company is having a most prosperous season and during the past three months, has made an additional sale of 30,000 feet of lumber on which shipment has already commenced. This goes to show the Chicago market and an average of fifteen cars are loaded daily.

Miss Anna Shower, of Ely, who has been the guest of Miss Julia Mahady at Tower Junction for the past two weeks, departed for her home on Thursday.

As a consequence of the outing of W. H. Cren and family of Chicago and C. N. Cren, of St. Louis, on Lake Vermilion, there will be erected on its shores two or three fine summer residences and these will eventually lead to the first visit of these parties to the lake, it bespeaks well for its future as a summer resort.

ELY EVENTS.

Ely, Minn., Sept. 11.—(Special to The Herald.)—The Phindus and Pioneer steam shovels discontinued operations this week. Shipments from pockets will continue, however, as long as navigation is open. This is a rather early discontinuance of the shovels and is accounted for by the fact that the present large piles in stock. The night shift will remain idle at the Chandler, but it is to be hoped that work will now resume to stockpiles in anticipation of heavy sales next season.

Two Austrians were injured at the Pioneer Monday evening by a cave-in. They are not seriously hurt and will be around in a few days.

Dr. William Goldworthy left for Duluth on Friday morning, where he will assist Dr. Budd during the absence of Dr. Sewall on a short vacation.

W. H. Pattison and son, of West Superior, were in the city over Sunday looking up interests in this section. Richard Polkinghorne and Capt. N.

Cowling left Monday for the state fair. They are expected to return this evening.

William Cowling, Dan Lang, Dan Garrison, Charles Stoll and William Howe departed Monday morning for Duluth. They were summoned as witnesses in the Stoll murder trial.

John Donovan, an old-time resident of Ely, who now lives in Duluth, came Tuesday evening for a few days' visit with friends.

George Croviers returned Tuesday evening from his visit to Two Harbors and Duluth.

Mr. and Mrs. John T. Bawden departed Tuesday for a few weeks' vacation to be spent in the East. They will visit Buffalo and Detroit.

Miss Jessie Goldworthy left Tuesday morning for Minneapolis, where she will attend school the coming term.

E. A. Camp has returned from the G. A. R. encampment at Buffalo. Rev. Father Bih, of Tower, came up Tuesday evening.

Herman Jadewick, the lapenaking clear manufacturer, was in the city Tuesday.

John Cox, of Ishpeming, came up Tuesday evening to visit his son, William, who is attending school at St. Paul, will give an illustrated lecture in the City opera house, on "New America and the Klondike."

Michael Harry Wicks, for many years a resident of this city, has sold his property on the road to the lake and will soon depart for Northern Michigan.

John G. Brown returned Monday from his visit to Duluth.

August Lindgren and family left Saturday for the state fair to be gone a week or more.

J. C. Hanson, who has conducted a confectionery business for many years, but later a restaurant, has closed his business in the city and accepted a position at the United States Geological surveying party near Bush Lake.

John G. Brown returned Monday from his visit to Duluth.

option to him given by the
the title of the mortgage
thereby secured, by declaring
the principal sum secured, that the
principal sum secured is and
with all accrued interest
in block one hundred and
there is therefore claimed
and there is actually due, upon
the date of this sale, of the
\$5,000 (\$4,875.00), principal,
and costs and charges, and
said mortgage contains a
in due form, which has
been given by reason of the
and no action or pro-
ceeding has been taken to
recover the debt secured by
said mortgage, and there-
fore, notice is hereby given
of said power of sale con-
tained in the above recited
in such case made, said mort-
gage is hereby foreclosed, and
described therein, situate in
the city of St. Louis, in the
lot; Lots numbered four (4),
six (6), in block one hun-
dred and thirty-two (32),
according to the recorded plat
of said lots, in said city of
St. Louis county, Minn.

of a certain mortgage dated February
the first day of February, 1891, be-
tween Charles Swanson and
Charles Swanson, her husband, and
coors, to The Zenith Building and Loan
association, of the city of St. Louis,
the office of the register of deeds of St.
Louis, in book one hundred and
thirty-two of February, 1891, at 4 o'clock p. m.,
in block one hundred and thirty-
two, said default, mortgage, page 52,
to be paid by said mortgagor, by
pay successive installments with interest
at the rate of ten per cent. per
year, and the said mortgage is
by said mortgage, whereby the
principal sum secured by said
specified in said note and mortgage
is and was the sum of five thousand
dollars, the value of mortgagors' stock in said
association, as shown by the books
of said association, was at the time
declared to be due and payable, which
sum of five thousand dollars was
declared to be due and payable
to \$12.00. Now, therefore, by virtue
of said mortgage and of the statute
contained in said mortgage, and
made and provided, notice is hereby given

ADVANCE WHEAT

Very Bullish News About the Foreign Crops Caused a Good Rise.

SHORTAGE IS HEAVY

Locusts are Reported to Be Devouring the Wheat in Argentina.

Wheat was very strong and higher today owing to the news of a bullish character regarding the foreign crops, which more than offset the influence of enormous receipts at the Northwestern primary points. Heavy shortages in the French and Italian crops were reported, and it was stated that locusts are devouring the crops in Argentina. Cables were also steady and the engagements at the seaboard for export were liberal.

Trading was very active on the Duluth board, December opened 1/2¢ higher at 95¢, reacted to 94 1/2¢ and closed at 94 1/2¢. It again declined to 94 1/2¢ and closed at 94 1/2¢. The advance of 1/2¢ for the day, the September price, and the mills took a bus at 94 1/2¢ and closed at 94 1/2¢. The advance of 1/2¢ for the day, the September price, and the mills took a bus at 94 1/2¢ and closed at 94 1/2¢.

ON THE CHICAGO BOARD.

Much Bullish News Caused a Strong Market.

Chicago, Sept. 14.—Wheat opened strong today at an advance of about 1¢, December starting at 95 1/2¢, compared with yesterday's closing price of 94 1/2¢. The market was helped by the bullish foreign crop advices. The French official crop report showed a 100,000 bushel increase of 5,000,000 bushels, the Italian report showed a 50,000 bushel increase, and there were more reports of locusts in Argentina. On the other hand, Northwest receipts were moderate, and the market was helped by the bullish foreign crop advices.

PERSONALS.

Wheat \$1.6 1/2 1891.

Exports of wheat this year are almost up to the exports for 1891, yet those conditions in the wheat above \$1.60, or more than 20 cents a bushel higher than it is now. Buy wheat on every Tuesday above \$1.60, and the country is educated to low prices. But when it does start, it will go to \$1.65. Send for our free book; it explains trading. C. O. R. & Co., Flour Exchange, Minneapolis.

ness was done at New York, Continental wheat some lower but Liverpool strong and no inclination to share our weak news. From many sections come complaints of light weight early but not the advance at the close. Selling down. Early buyers were covering shorts on continued dry weather, when the demand was anticipated local bear traders sold possession of the market. Cuts did not sympathize much with the corn on its weak spots.

Provisions were sold freely early by local interests but received better support than in late afternoon evidence that the timidity of the outside buyers was waning off.
